The BMW 2 Series Convertible.

A free spirit as refreshing as a breeze, inviting you to enjoy relaxed cruising – with the reassurance that you will always have lots of extra power in reserve. Take a seat and enjoy. Sheer Driving Pleasure is rarely this sensuous.

The BMW 2 Series Coupé.

A rebel. Wild and passionate. The latest chapter in the long and illustrious history of the BMW Coupé is a particularly gripping one: press “Start”, leave all conventions behind, and experience a new dimension of driving pleasure.

SEE ALL THE HIGHLIGHTS
IN A SHORT VIDEO.

THE BEST DUST IS THE ONE YOU LEAVE IN YOUR WAKE.

The M235i xDrive takes 4.6 seconds to accelerate from 0 to 100km/h. But the exhilaration is instant. The latest-generation BMW TwinPower Turbo engines and the optional eight-speed Steptronic Sport transmission in the BMW 2 Series Coupé deliver up to 240kW (326hp), for maximum power combined with reduced fuel consumption. The design is equally sporting: the slightly forward-leaning kidney grille, long bonnet and dynamic wedge shape – everything about this car communicates movement. Care to come along?

FEEL THE SHEER DYNAMISM OF THE BMW 2 SERIES COUPÉ.
AN EXPERIENCE YOU WON'T FORGET!

OPEN THE DOOR
TO EUPHORIA.

The moment you sit down in the cockpit of the BMW 2 Series Coupé, you feel like you're at the centre of things. The upper part of the centre console is ergonomically inclined towards the driver, and the Control Display is perfectly placed in your field of vision. The frameless windows are particularly elegant, and flawless workmanship ensures that the high-quality, carefully matched materials are displayed to maximum effect.

AS UNBRIDLED AS YOUR PASSION.

Dynamic performance is part of its DNA: Every component in the BMW 2 Series Coupé has been designed for maximum sportiness. The Launch Control of the optional eight-speed Steptronic Sport transmission for example takes you to top speed in the quickest time possible, by ensuring your tyres always have optimal grip. The entire vehicle concept with rear-wheel drive, optional adaptive suspension and optional variable sport steering is focused on a single aim: leading the field.

THE REAR: A LASTING IMPRESSION.

No roof, but plenty of style. With the top down, the BMW 2 Series Convertible looks particularly impressive: its low-slung, elegant silhouette emphasises sensuousness and agility, while the typical L-shaped single-unit taillights visually underscore the car's width and road-hugging stance. Leaving everyone else behind, you're out in front – followed by admiring glances.

THE FRONT: A STATEMENT.

Air resistance is futile. The front design of the BMW 2 Series Coupé communicates its uncompromising forward urge: headlights ending in a sharp point keep a close watch on the road, while the contour lines on the bonnet mirror air flows. The integrated Air Curtain minimises drag and makes you faster. All in support of one goal: high performance for maximum driving enjoyment.

GO SAILING ON THE ROAD.

Feels like being on a yacht. Like the deck of a boat, the interior is inset into the body, surrounding you with elegance and comfort. And in vehicles with Steptronic transmission, Driving Experience Control provides another invitation to go sailing: when you take your foot off the accelerator in ECO PRO mode without applying the brakes, the system will uncouple the engine from the drivetrain, allowing you to coast along in quiet relaxation – thanks to innovative BMW EfficientDynamics technologies.

RAIN? GREAT!

Equally stunning with the roof up. The softtop of the BMW 2 Series Convertible looks just the part, and with its improved insulation minimises road noise. Opening and closing the softtop takes just 20 seconds and can be performed at speeds of up to 50km/h – probably the fastest sunrise you'll have ever experienced.

ALWAYS ASSURED AN OUTSTANDING RECEPTION.

On the road, yet in touch with the whole world. Thanks to BMW ConnectedDrive the BMW 2 Series Convertible offers you a whole host of optional Services and Apps to make your journey safer and more enjoyable. Using a music flat rate account with a BMW music partner the optional BMW Online Entertainment provides you with unlimited access to millions of songs, allowing you to choose the right soundtrack for any occasion. Just pick and go.

INNOVATION AND TECHNOLOGY.

BMW TWIN POWER TURBO ENGINES: At the heart of BMW EfficientDynamics.

BMW EFFICIENT DYNAMICS: Making fuel saving fun.

BMW CONNECTED DRIVE: Services & Apps and Driver Assistance.

CHASSIS: Innovative systems for more driving pleasure.

SAFETY: Advanced technology at your service.

BMW TwinPower Turbo engines. At the heart of BMW EfficientDynamics.

Thanks to BMW TwinPower Turbo technology, the innovative new generation of BMW petrol and diesel engines from the BMW EfficientDynamics engine family can achieve agile performance and excellent responsiveness even at low rpms, while at the same time featuring exceptionally low fuel consumption and emissions. Increased efficiency and optimal dynamics guarantee noticeably more intense driving pleasure.

BMW TWIN POWER TURBO FOUR-CYLINDER PETROL ENGINE 228i.

The BMW TwinPower Turbo four-cylinder petrol engine achieves a peak output of 180kW (245hp), while ensuring an impressively low combined fuel consumption of just 6.6 litres per 100km in the Coupé, and 6.8–7.0 litres per 100km in the Convertible. Featuring a TwinScroll turbocharger with Valvetronic, Double-VANOS and High Precision Injection, this engine provides a maximum torque of 350Nm at the low engine speed of 1,250rpm.

BMW M235i/M235i xDrive. Coupé / Convertible

- M Performance TwinPower Turbo six-cylinder in-line petrol engine with 240kW (326hp) and 450Nm torque
- Acceleration 0–100km/h: 5.0sec/4.6sec (xDrive) / 5.2sec/4.9sec (xDrive)
top speed: 250km/h¹/250km/h¹ (xDrive) / 250km/h¹ / 250km/h¹ (xDrive)
- Combined fuel consumption: 8.1 litres/100km²/7.8 litres/100km² (xDrive) / 8.5 litres/100km²/8.3 litres/100km² (xDrive)
- Combined CO₂ emissions: 189g/km²/182g/km² (xDrive) / 199g/km²/193g/km² (xDrive)

BMW 228i. Coupé / Convertible

- BMW TwinPower Turbo four-cylinder petrol engine with 180kW (245hp) and 350Nm torque
- Acceleration 0–100km/h: 5.8sec / 6.1sec;
top speed: 250km/h¹ / 250km/h¹
- Combined fuel consumption: 6.6 litres/100km² / 6.8–7.0 litres/100km²
- Combined CO₂ emissions: 154–155g/km² / 159–163g/km²

BMW 220i. Coupé / Convertible

- BMW TwinPower Turbo four-cylinder petrol engine with 135kW (184hp) and 270Nm torque
- Acceleration 0–100km/h: 7.0sec / 7.5sec;
top speed: 235km/h / 231km/h
- Combined fuel consumption: 6.1–6.4 litres/100km² / 6.5–6.9 litres/100km²
- Combined CO₂ emissions: 142–149g/km² / 152–161g/km²

BMW 218i. Coupé / Convertible

- BMW TwinPower Turbo three-cylinder petrol engine with 100kW (136hp) and 220Nm torque
- Acceleration 0–100km/h: 8.8sec / 9.4sec;
top speed: 210km/h / 207km/h
- Combined fuel consumption: 5.1–5.6 litres/100km² / 5.5–6.0 litres/100km²
- Combined CO₂ emissions: 119–130g/km² / 129–139g/km²

BMW 225d. Coupé / Convertible

- BMW TwinPower Turbo four-cylinder diesel engine with 165kW (224hp) and 450Nm torque
- Acceleration 0–100km/h: 6.2sec / 6.4sec;
top speed: 243km/h / 235km/h
- Combined fuel consumption: 4.3–4.6 litres/100km² / 4.6–4.9 litres/100km²
- Combined CO₂ emissions: 114–121g/km² / 121–128g/km²

BMW 220d/220d xDrive³. Coupé / Convertible

- BMW TwinPower Turbo four-cylinder diesel engine with 140kW (190hp) and 400Nm torque
- Acceleration 0–100km/h: 7.1sec/6.9sec (xDrive) / 7.5sec;
top speed: 230km/h/225km/h (xDrive) / 225km/h
- Combined fuel consumption: 4.1–4.4 litres/100km² / 4.3–4.7 litres/100km² (xDrive) / 4.4–4.7 litres/100km²
- Combined CO₂ emissions: 107–115g/km²/113–124g/km² (xDrive) / 116–124g/km²

BMW 218d. Coupé / Convertible

- BMW TwinPower Turbo four-cylinder diesel engine with 110kW (150hp) and 320Nm torque
- Acceleration 0–100km/h: 8.4sec / 8.9sec;
top speed: 213km/h / 208km/h
- Combined fuel consumption: 4.0–4.4 litres/100km² / 4.3–4.7 litres/100km²
- Combined CO₂ emissions: 106–116g/km² / 114–124g/km²

BMW EFFICIENTDYNAMICS.
LESS EMISSIONS. MORE DRIVING PLEASURE.

powered by 

¹ Electronically limited.
² Fuel consumption and CO₂ emissions are dependent on the selected wheel and tyre size. For further information see pages 54 | 55 and 56 | 57 or consult your BMW partner.
³ Only available for the BMW 2 Series Coupé.

BMW EfficientDynamics

Less emissions. More driving pleasure.

Whether the goal is maximum performance or minimum fuel consumption – for BMW, the focus is always on delivering quintessential BMW driving pleasure. BMW EfficientDynamics is the strategy developed by BMW to minimise fuel consumption and emissions while simultaneously increasing dynamics and driving pleasure. It is a comprehensive technology package that encompasses the engine, energy management and the vehicle concept – and is standard in every BMW.

OUTSTANDING: DRIVING EXPERIENCE CONTROL INCL. ECO PRO MODE.

Driving Experience Control lets the driver choose between the standard COMFORT mode, the more efficient ECO PRO mode, the SPORT mode and the optional SPORT+ mode, for an even more dynamic drive. ECO PRO mode adjusts the characteristics of the Steptronic transmission (if present) and the heating/air conditioning settings to make the drive as fuel-efficient as possible. ECO PRO mode reduces fuel consumption by up to 20 percent¹. Further fuel savings can be achieved using the Coasting mode, the Route-Ahead Assistant and ECO PRO Route².

ENGINES.

The **BMW TwinPower Turbo petrol engines** feature remarkably agile power delivery and excellent responsiveness, even at low engine speeds. At the same time they are more efficient, with fewer emissions and better performance than their predecessors.

The new **BMW TwinPower Turbo diesel engines** are characterised by outstanding responsiveness and agile power delivery at all engine speeds. They are also breathtakingly dynamic, highly fuel-efficient and produce few emissions.

VEHICLE CONCEPT.

Thanks to targeted **aerodynamic measures**, every BMW boasts excellent air resistance figures. This has a positive impact on efficiency and driving stability, and reduces the level of noise in the interior. These features include the flat undercarriage cover and the Air Curtain in the front apron.

ENERGY MANAGEMENT.

In conjunction with the navigation system Professional, the **ECO PRO Analyser** evaluates the driver's driving style – before, during and after a journey – and how efficiently they accelerate, brake and change gear. This information appears on the display during the journey. These useful ECO PRO tips help the driver to adopt an even more efficient way of driving.

The **eight-speed Steptronic transmission** ensures smoother gear shifts and greater driving comfort, thanks to fast engine speed transitions and short shift times. It unites outstanding comfort with impressive dynamics and increased fuel efficiency.

The **route-ahead assistant** is a function included in the ECO PRO mode and it helps the driver to adopt a more efficient way of driving. In conjunction with the navigation system Professional, it recognises bends, built-up areas, roundabouts, T-junctions, speed limits and motorway exits along the chosen route and gives tips in advance about when to stop accelerating.

Whenever the driver takes their foot off the accelerator without braking, the **coasting function** (a component of the ECO PRO mode) cuts the power between the engine and drive in vehicles with eight-speed Steptronic transmission. The vehicle rolls along without any resistance from the engine, which rotates at idle speed consuming a minimum of fuel and with minimal emissions.

The **Optimum Shift Indicator** shows the most efficient gear for a given driving situation. This display appears in the cockpit of all BMW models with a manual transmission or the Steptronic transmission (in manual mode) and helps the driver to drive more fuel-efficiently, especially in urban traffic and on long-distance journeys.

¹ Depending on individual driving style, according to an internal BMW fuel consumption study.
² Only available in conjunction with navigation system Business or navigation system Professional.

BMW ConnectedDrive

So connected, you're free.

Our world is becoming more closely connected every day. And for BMW drivers it goes without saying that they can request information, communicate via telephone or email and always be up to date – all while they're on the go. The BMW ConnectedDrive¹ concept encompasses all the services and innovative technologies that link BMW vehicles and their passengers to the outside world and surrounding traffic.

The **BMW ConnectedDrive Services*** option provides the driver with a wide range of information, entertainment and service features on the road.

It also includes BMW Online, which enables you to access current, localised information such as weather, news and an online search powered by Google™, as well as various office functions. You can also combine individual services and features such as webcams, fuel price info, parking information, travel and hotel guides in the "Applications" menu.

The secure and comfortable use of selected smartphone applications is also included for an unlimited period of time. The ConnectedDrive Services option also includes access to the **BMW ConnectedDrive Store**, in which services and apps can be booked, extended and selected according to individual needs, at any time and from any place. The ConnectedDrive Services option also offers much more to make each journey in a BMW into a real experience.

BMW ConnectedDrive with its intelligent services and assistance systems is ready with all the right equipment.

BMW ConnectedDrive Services & Apps offer more freedom by providing versatile connections between the driver, vehicle and the outside world. **BMW ConnectedDrive Driver Assistance systems** make driving a BMW safer and more comfortable. And intelligent systems make life easy for the driver and minimise the dangers of traffic.

Online Entertainment² enables you to open a music flat-rate account with a BMW music partner such as Napster that can also be used on any other device supported by the provider. This gives you unlimited access to up to 22 million music titles.

The **Driving Assistant³** combines Lane Departure Warning, Approach Warning and Attentiveness Assistant. At speeds between 10 and 60km/h the Approach Warning and Pedestrian Warning system with city braking function alerts you to any impending collisions, and if required will apply the brakes. At speeds above approximately 70km/h, the Lane Departure Warning alerts the driver if the vehicle threatens to stray out of its lane, by making the steering wheel vibrate.

Making even better use of commute time with **Bluetooth Office**. Thanks to a Bluetooth connection, emails, appointments, tasks and text messages can be shown on the Control Display or read aloud over the audio speakers. A list of all compatible mobile devices is available at www.bmw.com/bluetooth.

* May not be available in all countries. Please consult your BMW partner.

¹ For further information on BMW ConnectedDrive please visit <http://www.bmw.com/connecteddrive>

² Requires ConnectedDrive Services equipment and navigation system Professional.

³ System performance may be limited in dark and foggy conditions.

Chassis.

A solid foundation for superior driving dynamics.

The intelligent **all-wheel xDrive system** adapts perfectly to even the most challenging road surface conditions, always offering outstanding traction. With xDrive and Dynamic Stability Control (DSC), the vehicle remains directionally stable and on track. Split second response times allow xDrive to distribute drive power flexibly between the two axles for optimum grip. In this way, xDrive combines the advantages of all-wheel drive – traction, directional stability and safety – with classic BMW agility.

The **rear-wheel drive** forms the basis for classic BMW steering precision, agility and sporty driving characteristics. Seeing as propulsion comes from the rear instead of the front wheels, it enables highly sensitive steering and the ideal weight distribution of 50:50. This ensures great traction and directional stability on bends.

The optional automatic **eight-speed Steptronic Sport transmission** adapts to suit individual driving styles. It ranges from comfortable cruising to very dynamic handling. In SPORT mode, the gear shifts are configured for maximum performance. It is also possible to change gears manually by using the gear lever or the gearshift paddles on the steering wheel.

The optional **Adaptive M suspension** includes variable damper control. The driver can choose between comfortable or dynamic suspension settings using the Driving Experience Control. The suspension has been lowered by 10mm in order to emphasise the car's sporty appearance and further increase agility.

The optional **variable sport steering** with Servotronic creates a direct and agile steering response and ensures less physical effort is required to turn the wheel. It reacts to the angle of the steering wheel with varying steering ratios. This improves handling when driving more dynamically and makes parking and turning easier.

An ideal **axle load distribution of 50:50** helps ensure great directional stability, agile handling and a precise steering response. A lower centre of gravity, along with a long wheelbase with short overhangs, generates optimal conditions for these positive driving characteristics.

Safety.

Unparalleled safety with the latest BMW technology.

■ **Dynamic Stability Control (DSC)** recognises any risk of skidding and stabilises the vehicle.

□ **Adaptive headlights** with variable light control provide optimal illumination in every situation and therefore help to improve active safety.

■ **The Air Curtain** channels the air flow at the front apron and front wheels, thereby reducing turbulence, air resistance and fuel consumption.

■ **Tyre pressure monitor.** Sensors on each wheel assess the tyre pressure and temperature and the tyre pressure monitor warns the driver of any loss of pressure.

■ **Intelligent emergency call*** automatically establishes a connection with the nearest rescue coordination centre through the BMW call centre whenever needed – without the use of a mobile phone.

■ **The fully recessed roll-over protection system** features roll bars which extend automatically should the vehicle ever overturn, thereby protecting occupants in the Convertible.

INDIVIDUALITY AND ADAPTABILITY.

EQUIPMENT: BMW Lines, BMW M Performance automobiles, equipment highlights, wheels and tyres and Original BMW Accessories.

COLOURS: Exterior and interior colours.

TECHNICAL DATA: Weight, engine, transmission, performance, fuel consumption, wheels and dimensioned drawings.

BMW SERVICE: BMW Service, BMW Financial Services and the BMW brand experience.

05 □

06 □

[05 | 06] The BMW 2 Series Coupé and the BMW 2 Series Convertible with M Sport package in the optional, exclusive Estoril Blue metallic exterior colour.

BMW M235i COUPÉ AND CONVERTIBLE. M DNA INCLUDED.

The **BMW M235i** benefits from the unique expertise of BMW M engineers, with a specially fine-tuned powertrain, chassis and steering system. As a driver, you feel it most in the precise, sporty handling, which makes for a particularly intense driving experience. The M Performance TwinPower Turbo six-cylinder in-line petrol engine delivers 240kW (326hp) of power and a maximum torque of 450Nm – accompanied by a unique sound. The optional intelligent all-wheel xDrive system, now also available for the BMW M235i Convertible, masterfully transmits this power to the road. It is aided by the low-set optional adaptive suspension with variable damper control, the variable sport steering, the optional eight-speed Steptronic Sport transmission and exclusive 18" light alloy wheels in Ferric Grey metallic. The exterior mirrors in Ferric Grey metallic as well as the M Aerodynamics package with larger air inlets¹, special side skirts and a diffuser insert in the rear apron visually underscore the vehicle's dynamic appearance. The interior features contoured M sport seats and an easy-grip M leather steering wheel for a convincing look.

powered by 

Lettering. The rear of the car features a distinctive M235i model designation.

The door sill finishers feature M235i lettering as well.

¹ Available without fog lights.

EQUIPMENT HIGHLIGHTS.

■ Standard equipment □ Optional equipment

[01] The high-beam assistant relieves the driver at night by automatically activating the high-beam and low-beam headlights depending on the presence of oncoming traffic or vehicles in front.

[02] Glass sliding/vent roof, electric, with sun protection, trap release, and comfort opening and closing functions (BMW 2 Series Coupé).

[03] The BMW Individual high-gloss Shadow Line design package features numerous external equipment features in high-gloss Black (standard on M235i and M235i xDrive).

[04] Xenon headlights (standard on M235i and M235i xDrive) enhance visibility, providing optimal illumination in every situation when combined with adaptive headlights.

[05] The Chrome Line exterior with details in high-gloss Chrome gives the vehicle a particularly sophisticated look (standard on 228i and 225d).

[06] The fog lights¹ in the front apron ensure better visibility and improved safety (standard on 228i and 225d).

[07] Thanks to its striking rear lights in LED technology, the vehicle is instantaneously recognisable as a BMW.

[08] Opening the doors and starting the engine without having to use the car key – the comfort access system makes it possible.

[09] The rain sensor including automatic headlight activation automatically switches on the windscreen wipers and the low-beam headlights.

[10] The electric softtop is characterised by its great insulating properties and can also be opened or closed while driving.²

[11] Tailpipe in black Chrome, single (shown here with Sport Line for 218i, 220i, 218d).

[12] The removable tow ball¹ on the trailer tow hitch ensures that the sporty design of the vehicle's rear is in no way negatively impacted when the hitch is not being used.

[13] The scratch-resistant rear window on the softtop provides good rearward visibility. It too fully disappears into the luggage compartment when the softtop is folded down (BMW 2 Series Convertible).

[14] The wind deflector provides the driver and front passenger with effective protection from draughts. When not in use, it can be compactly stored in a bag in the luggage compartment (BMW 2 Series Convertible).

¹ Not available for the M235i and M235i xDrive.

² Fully automatic opening and closing at speeds of up to 50km/h.

EQUIPMENT HIGHLIGHTS.

■ Standard equipment □ Optional equipment

01 ■

02 □

03 □

04 □

05 □

06 □

07 □

[01] The standard front seats offer manual adjustment options for the fore-and-aft position, backrest angle, headrest and seat height, including the easy-entry function.

[02] The iDrive Touch Controller (part of navigation system Professional): intuitive control via the iDrive Controller touchpad.

[03] The M leather steering wheel features multifunction buttons, more pronounced thumbrests and a thicker rim for a better grip (standard for the M235i and the M235i xDrive).

[04] Sport leather steering wheel, black, including multifunction buttons, with three spokes and a thicker wheel rim for great handling and easy operation of various in-car systems (standard on 228i and 225d).

[05] Sport seats for the driver and front passenger offer great comfort and perfect lateral support thanks to their electronic adjustment options for various parts of the seat.

[06] The automatic eight-speed Steptronic Sport transmission makes it all possible – from comfortable cruising to a more dynamic driving style (standard on M235i xDrive and 225d).

[07] The automatic air conditioning with two-zone control includes Automatic Air Recirculation (AAR) with an active carbon filter, as well as fogging and solar sensors.

08 □

09 □

10 □

[08] The lights package features numerous LED lights both inside and outside the car for increased convenience and a premium look. The above image illustrates the ambient light feature (included).

[09] The Navigation system Professional incl. 8.8" LCD colour display comes with a three-dimensional map display and 20GB of hard disk space.

[10] The Speed Limit Info including the no-overtaking indicator provides information on speed limits as well as no-overtaking zones.

11 □

12 □

13 □

14 □

[11] Harman Kardon surround sound system with 360 W digital amplifier, 7 channels, vehicle-specific equalizer and 12 loudspeakers including centre speaker.

[12] The rear view camera shows the area behind the vehicle on the Control Display. Interactive guide lines and obstacle markings help the driver when reversing.

[13] The Driving Assistant¹ issues a warning whenever there is an unintentional lane change or when it detects a possible collision, and brakes automatically in the event of an emergency.

[14] When the backrest is folded down, a through-loading gap appears, enabling the transportation of long objects.

¹ This function can be limited by darkness and fog.

WHEELS AND TYRES.

■ Standard equipment □ Optional equipment ○ Accessories

[01] 16" light alloy wheels V-spoke style 378, 7 J x 16 with 205/55 R 16 tyres (standard on 218i, 220i, 218d, 220d and 220d xDrive)¹.

[04] 16" light alloy wheels Star-spoke style 376, 7 J x 16 with 205/55 R 16 tyres.²

[07] 19" BMW M Performance light alloy wheels Double-spoke style 405 M with mixed tyres, front 7.5 J x 19 with 225/35 R 19 tyres, rear 8 J x 19 with 245/30 R 19 tyres.³

[02] 16" light alloy wheels Star-spoke style 654, 7 J x 16 with 205/55 R 16 tyres.²

[05] 17" light alloy wheels Double-spoke style 655, 7.5 J x 17 with 225/45 R 17 tyres.

[08] 19" light alloy wheels Double-spoke style 361 in Ferric Grey with mixed tyres, front 7.5 J x 19 with 225/35 R 19 tyres, rear 8 J x 19 with 245/30 R 19 tyres.³

[03] 18" light alloy wheels Double-spoke style 385 with mixed tyres, front 7.5 J x 18 with 225/40 R18 tyres, rear 8 J x 18 with 245/35 R 18 tyres.

[06] 17" light alloy wheels Turbine style 381, 7.5 J x 17 with 225/45 R17 tyres.

ORIGINAL BMW ACCESSORIES.

[01] The racing bicycle holder is crafted from high-quality materials and can be easily mounted on the roof using a simple clamping system. No tools required.

[03] Fitted luggage compartment mat, Sport. This durable, non-slip mat protects against dirt and moisture. Its black and red design complements the Sport Line.

[05] Hard-wearing USB cable adapter for integrating and simultaneously charging compatible Apple iPod™ and iPhone™ devices.

[02] The coat hanger from the Travel & Comfort system range allows clothes to be transported without creasing. Detachable for use outside the vehicle.

[04] For many current mobile phones, there are snap-in adapters available that provide an aerial connection as well as a storage and charging facility, making in-car phone use more convenient.

[06] All-weather floor mats, Sport. Perfectly fitted to the front footwells, these mats protect from moisture, dirt and mould. Their black and red design complements the Sport Line.

¹ Only available for the BMW 2 Series Coupé.

² Not available for the 228i and 225i.

³ You can find these and other wheels as Original BMW Accessories on www.bmw.com/accessories

¹ The figure quoted includes a 90 per cent tank filling, 68kg for the driver and 7kg for luggage.
Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.
² Values may differ for models with xDrive.
³ The overall weight of the trailer must not exceed the maximum permissible trailer load, taking into account the maximum permissible towbar download.
⁴ BMW recommends the use of RON 95 super unleaded petrol. Unleaded RON 91 and higher with a maximum ethanol content of 10% may also be used. Output and fuel consumption figures apply to RON 95 fuel.

⁵ All engines comply with the EU6 emissions standard. Fuel consumption is determined in accordance with the ECE driving cycle made up of approximately one-third urban traffic and two-thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption.
⁶ Fuel consumption and CO₂ emissions are dependent on the selected wheel and tyre size. Optional equipment may increase these figures. Please consult your BMW partner for in-depth information.
⁷ Electronically limited.

Figures in [] apply to vehicles with Steptronic transmission.

¹ The figure quoted includes a 90 per cent tank filling, 68kg for the driver and 7kg for luggage.

Unladen weight applies to vehicles with standard equipment. Optional equipment may increase this figure.

² Values may differ for models with xDrive.

³ The overall weight of the trailer must not exceed the maximum permissible trailer load, taking into account the maximum permissible towbar download.

⁴ BMW recommends the use of RON 95 super unleaded petrol. Unleaded RON 91 and higher with a maximum ethanol content of 10% may also be used. Output and fuel consumption figures apply to RON 98 fuel.

⁵ All engines comply with the EU6 emissions standard. Fuel consumption is determined in accordance with the ECCE driving cycle made up of approximately one-third urban traffic and two-thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured in addition to fuel consumption.

⁶ Fuel consumption and CO₂ emissions are dependent on the selected wheel and tyre size. Optional equipment may increase these figures. Please consult your BMW partner for in-depth information.

⁷ Electronically limited.

Figures in [] apply to vehicles with Steptronic transmission.

WELL TAKEN CARE OF WITH BMW SERVICES:

When you buy a BMW, you can look forward to superb service and comprehensive customer care. For example, the **Condition Based Service** independently tracks both service fluid levels and the condition of parts subject to wear and then notifies you in the display when the vehicle requires servicing. So you only need to go to your BMW service partner when it's really necessary. When you do go, our

qualified BMW service specialists take care of your vehicle using the newest workshop technology and only **original BMW parts**. This service is available worldwide in more than 3,300 BMW service partner establishments in over 150 countries, to provide you with limitless driving pleasure.

BMW SERVICE.

BMW Service Inclusive*: The BMW Service Inclusive service packages ensure that costs for maintenance, inspection and worn parts are covered for the duration of your contract, allowing you to focus on unlimited driving pleasure. This service is available worldwide from all participating BMW service partners. For more information please visit www.bmw.com/serviceinclusive

BMW Guarantee extension: The BMW guarantee extension packages offer extended protection for your newly purchased BMW, in addition to the legal guarantee period. So you can enjoy another three years of carefree driving (up to the vehicle's 5th year). Find out more at www.bmw.com/serviceinclusive

BMW Mobile Service*: This service is there for you in case of a breakdown, day and night. Specially trained BMW technicians do everything necessary, on the phone or on-site, to get your car back on the road as fast as possible. We offer a comprehensive country-specific mobility package for breakdowns and insurance that covers you in the event of an accident or theft. And in case of an accident, call us at the BMW accident hotline! We'll take care of calling the police, an ambulance, a tow truck, a replacement car, notifying your insurance company and much more. For more information visit www.bmw.com

BMW Teleservices*: With Condition Based Service, you'll be automatically notified in the display of your next necessary service appointment. Provided you've consented, the most important vehicle data required for analysis will be relayed to BMW automatically. Your assigned BMW service partner will access the information and contact you free of charge to make a service appointment – if one is necessary. To access BMW Teleservices, the vehicle must be equipped with the optional Intelligent Emergency Call or ConnectedDrive Services. If necessary, the service can be deactivated at any time. For more on this topic please visit www.bmw.com/teleservices

BMW Financial Services: Tailor-made finance: BMW Financial Services offers you attractive leasing, finance and insurance packages. For further information visit www.bmwfs.com or ask your local BMW partner to make you an individual offer.

THE BMW EXPERIENCE.

BMW TV*: www.bmw.tv enables you to experience the BMW brand in all its diversity. Features, portraits and background reports provide you with information on automobiles, innovations, sports and lifestyle topics.

BMW Driving Experience: The better you control your BMW, the more enjoyment you will derive from driving it. Use our training courses to learn for yourself what it means to reach a car's physical limits on various types of surfaces, and what you have to do to control your vehicle even in extreme situations. For further information please visit www.bmwdrivingexperience.com

BMW Welt: Collecting a new car at BMW Welt ranks among the best moments any driver can experience. Turn this moment into an unforgettable day, and make the handover of your new BMW part of a unique programme of activities tailored to your personal preferences. With the BMW Plant, the BMW Museum and the BMW Group Headquarters, you will be surrounded by fascinating history, a breathtaking present and spectacular visions of the future. Find out more at www.bmw-welt.com/en

BMW Magazine: In BMW Magazine, experience the newest BMW models in front of stunning backdrops. Discover new design trends, travel destinations and the richness of modern life. Encounter people with visionary ideas who are changing the world. Find out more at www.bmw.com/magazine

SHAPING THE FUTURE – RESPONSIBLY.

In 2014, the BMW Group was once again ranked the most sustainable car manufacturer in the world by the Dow Jones Sustainability Index. It is the only automotive company to have featured on the renowned index every year since its inception. The development of efficient vehicle concepts and eco-friendly production processes, up to and including recycling, is an integral part of our engineering philosophy. BMW EfficientDynamics standards have enabled us to cut the CO₂ emissions of our fleet of new vehicles in Europe by more than 30% between 1995 and today. We're also aiming to reduce the amount of resources such as water and energy used in production by 45% between 2006 and 2020. Production at our engine plant in Steyr has been waste-water free since 2007. And of course each of our vehicles is designed for easy and economical recycling after its long running life. Please contact your BMW partner on all matters regarding your end-of-life vehicle. For further information please visit our websites.
