

JAGUAR F-TYPE

SPECIFICATION AND PRICE GUIDE

17 MODEL YEAR - APRIL 2016

THE ART OF PERFORMANCE

THE CONCEPT OF F-TYPE

F-TYPE is the latest in a distinguished bloodline of powerful, agile and utterly distinctive cars. It looks, feels and drives like a true Jaguar sports car. Coupé or Convertible, Rear Wheel or All Wheel Drive, Manual or Automatic, every F-TYPE showcases Jaguar's exhilarating performance, state-of-the-art handling and cutting-edge technology to deliver an unrivalled driver-focused experience.

Responsive supercharged engines. Lightweight aluminium body construction. Sophisticated suspension. InControl technologies to link you and your F-TYPE to the wider world. And options that include All Wheel Drive and Intelligent Driveline Dynamics for even greater performance capabilities, F-TYPE's advanced technologies keep you safe, connected and entertained.

In every F-TYPE, performance and art combine to deliver a car that is intensely Jaguar, a car that embodies the Art of Performance.

The following pages provide details and specifications for the F-TYPE range. In-depth descriptions of key features and available options are designed to give you all the information you require to create the F-TYPE that's right for you. Alternatively, you may prefer to use the F-TYPE configurator at jaguar.co.uk/build-yours to specify and price your new car.

CAR CARE, TRACTION AIDS AND MAINTENANCE			PART NUMBER	PRICE
Rear Mounted Ski Carrier	Carry up to 2 pairs of skis safely and securely on this lockable ski carrier. Designed to minimise wind noise and air resistance, the carrier requires no auxiliary lighting or number plate board	V6 models	T2R13769	£1,055.00
		V8 models	T2R11987	£1,040.00
Snow Sock Winter Traction Aid	Stay in control with these innovative traction aids. Constructed from lightweight textile they're quick and easy to attach or remove and fold down for storage. Fit to all four wheels for best results in snow and ice	Snow Sock Pack 695	C2D20229	£94.00
		Snow Sock Pack 697	C2D20230	£88.00
		Snow Sock Pack 69J	C2D20228	£94.00
Snow Traction System	Help maintain grip in snowy, muddy or icy conditions with this snow chain traction system that fits neatly on the rear wheels of your F-TYPE (offered for fitment on Venus or Tamara accessory wheels only)	-	T2R6040	£531.00
Locking Wheel Nuts	Every detail counts - these wheel nuts add a subtle finishing touch to your F-TYPE	-	T2R10816	£96.00
Spare Wheel Cover	Jaguar-branded spare wheel cover ¹	-	T2R5893	£41.00
Semi-rigid Loadspace Protector	This premium liner tailored specifically for the F-TYPE Coupé will protect the loadspace area. Light and durable, it is easily removed for cleaning	Coupé models	T2R11244	£141.00
Luxury Loadspace Carpet Mat	Luxurious soft luggage mat. Deep premium 2,000 g/m ² pile with nubuck edging	Coupé models	T2R11270PVJ	£234.00
Front Windscreen UV Sunshade	Bespoke design for F-TYPE. Protect your vehicle's interior from the sun's rays ensuring it remains cool when parked	-	T2R7758	£249.00
All-weather Car Cover	Protect your F-TYPE from the elements, including showers, frost, dust and strong sunlight with this bespoke cover, tailored exclusively for the F-TYPE	-	T2R4364	£270.00
Child Safety Seats	Combine child safety and style with these car seats, tested specifically for your Jaguar	Group 0+ (birth - 13kg)	C2D21866	£184.00
		Group I (9kg - 18kg)	C2C35104	£378.00
		Group I-II (15kg - 36kg)	C2C35572	£178.00
Warning Triangle	Warning triangle complete with integral stand	-	C2P2895	£25.00
First Aid Kit	A legal requirement in certain countries	-	C2A1287	£49.00
Ashtray and Lighter	A sleek integrated cigarette lighter and ashtray	-	T2R7581	£80.00
		-	C2C11315	£20.00
Fire Extinguisher	Dry powder 1kg fire extinguisher. Effective against a wide range of fires including petrol and electrical	-	T2R10328	£101.00
Alloy Wheel Cleaner	Jaguar and Autoglym have collaborated to develop and rigorously test a unique high performance wheel cleaner formula. Available as a 500ml trigger spray	-	C2D20074	£13.00
Battery Conditioner	This conditioner continually monitors, diagnoses and maintains your battery at optimum levels. Includes loadspace socket for convenience and ease of use	-	C2P24103	£177.00

¹The spare wheel cover is supplied as standard if the optional spare wheel is specified.

Prices shown include VAT and Retailer fitting costs.

1. UMBRELLA HOLDER 2. ILLUMINATED TREADPLATE 3. UNION JACK TREADPLATE 4. STAINLESS STEEL PEDAL FOOTREST AND PEDAL COVERS 5. ALL-WEATHER CAR COVER

GLOSSARY

A

ACTIVE SPORTS EXHAUST

This system features active valves which, when open, allow the exhaust gases to exit via a more direct route through the rear silencer, bypassing a number of the silencer baffle-plates to produce a richer, more exhilarating noise. The system also allows the driver to use a button on the centre console (available as an option) to manually activate the bypass valves.

ADAPTIVE FRONT LIGHTING

Sensors react to the car's speed and steering input, and the system can deflect headlamp beams casting light deeper into corners, giving added confidence at night. Cornering lights illuminate areas to the side of the car at low speeds when the indicators are in use, or at larger steering angles, for example when parking.

ALL WHEEL DRIVE WITH INTELLIGENT DRIVELINE DYNAMICS

All Wheel Drive (AWD) works alongside Jaguar's Intelligent Driveline Dynamics (IDD) system to constantly analyse the car's behaviour and deploys appropriate power to optimise traction and stability. IDD uses the F-TYPE's electronic sensors, to detect impending understeer or oversteer and swiftly redirects power to the appropriate axle to adjust the car's trajectory through a corner. The system enhances the F-TYPE's traction and cornering capabilities, providing outstanding levels performance and control, whatever the conditions.

B

BLIND SPOT MONITOR WITH CLOSING VEHICLE SENSING

Blind Spot Monitoring uses radar sensors to remotely cover areas that cannot be seen either directly or by mirror, and helps alert the driver of overtaking traffic with an amber warning icon in the external mirrors. Closing Vehicle Sensing extends the monitoring zone rearwards from the blind spot zone to a distance of approximately 60m, helping alert the driver of fast-approaching vehicles in adjacent lanes.

BRAKING SYSTEM

The F-TYPE's braking system has been optimised for both performance and light weight, whilst delivering reassuring performance.

Performance Braking System

Front Disc Diameter – 354mm

Rear Disc Diameter – 325mm

High Performance Braking System

Front Disc Diameter – 380mm

Rear Disc Diameter – 325mm

Super Performance Braking System

Front Disc Diameter – 380mm

Rear Disc Diameter – 376mm

C

CARBON CERAMIC BRAKING SYSTEM

The optional Carbon Ceramic Braking system is available on S and R models fitted with 8-speed Automatic transmission. The system provides greater resistance to fade and wear and delivers high levels of sustained performance in even the most demanding conditions. The system offers up to a 21kg weight saving, further reducing the unsprung mass of the car with corresponding benefits to both ride and handling. Derived from motorsport technology and featuring monobloc calipers with 6 pistons at the front and 4 pistons at the rear, this is the most powerfully performing braking system ever fitted to a Jaguar road car.

Carbon Ceramic Braking System

Front Disc Diameter – 398mm

Rear Disc Diameter – 380mm

CONFIGURABLE DYNAMIC MODE WITH DYNAMIC-I DISPLAY

This system allows the driver to determine which characteristics are altered when Dynamic Mode is selected including engine responsiveness, steering, gear shift time and suspension settings (where Adaptive Dynamics is specified). The Dynamic-i display system allows the driver to display a range of performance information, including a stop watch with split times, brake and acceleration telemetry and a G-meter.

CRUISE CONTROL WITH AUTOMATIC SPEED LIMITER (ASL)

In tandem with Cruise Control, an Automatic Speed Limiter (ASL) allows the driver to select a maximum speed that should not be exceeded.

D

DYNAMIC MODE

By selecting Dynamic Mode the engine torque delivery characteristics are modified to sharpen accelerator pedal response. With the gearbox in Sport Mode the auto upshift points are raised while in Sequential Mode the gearbox will not auto upshift, with gear shifts becoming firmer and shorter. Steering assistance is also reduced for more steering 'feel'. Dynamic Mode also optimises the car's Adaptive Dynamic suspension settings to deliver a more involving driving experience.

DYNAMIC STABILITY CONTROL (DSC)

Intervenes in demanding driving situations by applying braking to individual wheels and reducing engine torque.

E

ELECTRIC POWER ASSISTED STEERING (EPAS)

The EPAS system's sensors are used to measure the driver's steering force, steering wheel angle, the speed with which it's being rotated, as well as gauging the car's road speed. Sophisticated software is used to determine the ideal amount of steering assistance to provide. This results in precise feedback for the driver ensuring that the F-TYPE's steering feels communicative, direct and connected. As the system only provides steering assistance when required, it also draws less power from the engine when compared to conventional hydraulic based systems, resulting in increased efficiency and reduced emissions.

ELECTRONIC ACTIVE DIFFERENTIAL

An Electronic Active Differential is standard on F-TYPE R and F-TYPE SVR. It is operated by an electric motor acting on a multi-plate clutch which can transfer torque to the wheel with the most grip. Fully automatic in operation, the system can apply full locking torque almost instantaneously. Working in conjunction with the stability, traction and ABS systems it allows for very fine control of power delivery and makes optimal use of available grip.

F

FRONT PARKING AID

Front parking assistance with Touchscreen visual indicator.

¹The Navigation system must always be used in conditions that will not affect the driver's ability to drive safely or affect the safety of other road users.

²Different DVDs exist in different regions. Please consult your Retailer for details of which countries are covered by the DVD supplied with your vehicle.

Please consult your Jaguar Retailer for details.

I

INCONTROL APPS

InControl Apps brings the convenience of smartphone apps to F-TYPE. By connecting a smartphone with a USB cable to the dedicated InControl Apps USB slot, a selection of popular smartphone apps, optimised for in-vehicle use, can be operated using the car's Touchscreen.

INCONTROL REMOTE

InControl Remote includes SOS Emergency Call and is designed to alert the relevant services to your exact location in the event of an airbag deployment. Alternatively you can press the SOS Emergency Call button in the car to request assistance. It also provides Optimised Jaguar Assistance to transmit your location and vehicle diagnostic data to help minimise delays to your journey. The InControl Remote App enables you to monitor your F-TYPE through your smartphone to check fuel levels and whether or not, it is locked. It also allows you to remotely pre-heat or pre-cool the car and lock/unlock your car.

INCONTROL SECURE

InControl Secure detects any unauthorised movement of your F-TYPE to alert you and liaise with the authorities to pinpoint the vehicle's whereabouts.

INTELLIGENT HIGH BEAM ASSIST

Intelligent High Beam Assist detects ambient light levels and oncoming traffic, switching automatically between high and dipped beams, when required.

J

JAGUAR 180W SOUND SYSTEM

180W with AM/FM radio controlled through the Touchscreen and Interactive Controls. Powered by a dedicated 8-channel amplifier featuring Audyssey MultEQ. audio equalisation and Dynamic Volume Control, that actively compensates for cabin noise. This amplifier powers 6 speakers.

JAGUAR QUICKSHIFT TRANSMISSION

The Quickshift 8-speed Automatic transmission is both fast and refined, with 8 closely spaced ratios keeping the engine within its most effective rev range for longer. The transmission's control system is both intelligent and adaptive, monitoring the driving situation together with the demands the driver is making of the car and responding to modify the gear shift strategy, ensuring the right gear is selected for every situation. In manual mode the Quickshift transmission delivers rapid precisely timed engine torque interventions during upshifts, creating a much shorter and crisper sounding shift while utilising the engine inertia to deliver a positive acceleration feel.

L

LIMITED SLIP DIFFERENTIAL

A mechanical Limited Slip Differential is fitted to F-TYPE S, F-TYPE S AWD and F-TYPE BRITISH DESIGN EDITION. This mechanical system allows the car to make best use of the available traction and offers the driver the opportunity to explore the car's superb balance.

M

MERIDIAN 380W SOUND SYSTEM

A powerful 12-channel DSP amplifier featuring Audyssey MultEQ. audio equalisation, and Dynamic Volume Control with 10 speakers. The system also employs Meridian Cabin Correction technology with advanced DSP to compliment the acoustics of the vehicle, dramatically improving clarity and authenticity of sound.

MERIDIAN 770W SURROUND SOUND SYSTEM

A surround sound system with either Dolby. Pro Logic. IIx or DTS™ neo 6, and Dynamic Volume Control with 12 speakers. Single slot CD/DVD and MP3 compatibility. In addition to Meridian Cabin Correction the system uses Meridian Trifield technology to deliver a perfect stereo sound to both vehicle occupants.

N

NAVIGATION SYSTEM¹

Postcode entry, destination entry on the move (Europe only), voice guidance, RDS and TMC (Traffic Messaging Channel)/Dynamic Route guidance, accessed through Touchscreen control system. On approach to a junction or turning, navigation information will be displayed in the instrument cluster.

P

PEDESTRIAN CONTACT SENSING SYSTEM

Industry-leading system that senses an impact between a pedestrian and the front of the car. It instantaneously raises the bonnet through a small distance in a very controlled way, to help prevent the pedestrian from contacting hard points under the bonnet.

R

RAIN/ICE/SNOW MODE

This mode moderates the responsiveness of the engine and optimises the gear change strategy to improve traction when road conditions are icy or adverse. When active, Rain/Ice/Snow Mode selects second gear for pulling away on level ground. In these conditions and in this mode the vehicle increases driver confidence by reducing the effect of the road conditions on the vehicle behaviour.

REAR PARKING AID

Rear parking assistance with Touchscreen visual indicator.

REVERSE PARK CAMERA WITH GUIDANCE

Combining a rear-facing camera with the Touchscreen information, it features coloured distance guides and on-screen guidance lines that move according to steering wheel angle to indicate the area into which the car will reverse.

REVERSE TRAFFIC DETECTION

The Reverse Traffic Detection system assists when reversing the car out of a parking space. Sensors in the rear of the car help detect vehicles approaching from either direction.

S

SINGLE SLOT CD/DVD²

Single slot CD/DVD is capable of playing video and audio discs. File formats include Windows Media Audio (WMA), AAC and MP3. Only available with Meridian 770W Surround Sound System.

SPORTS SUSPENSION WITH ADAPTIVE DYNAMICS

This system features a series of sensors placed about the car which measure vertical body movement, body roll and pitch 100 times a second, and can individually adjust each damper to help maintain a constant and level attitude. The system also measures steering input 500 times a second and is therefore able to predict the body's roll rate, and adjust the corresponding dampers to reduce the rate of body roll. Similarly when the driver presses the brake or throttle pedals the system can predict the amount of pitch and can stiffen the front or rear dampers to reduce the amount of dive or squat accordingly. Benefits of the system include improved body control; improved 'pitching' behaviour; improved handling and agility as well as rapid detection and reaction to critical driving conditions and driver demands.

T

TORQUE VECTORING BY BRAKING

The F-TYPE's Torque Vectoring technology uses controlled braking on the inside rear wheel whilst feeding more power to the outside rear wheel, helping to increase steering performance and inspire even greater driver confidence. On F-TYPE R and F-TYPE SVR the system works in conjunction with the Electronic Active Differential to improve cornering capabilities and driver control.

TOUCHSCREEN

8 inch colour Touchscreen display that controls major functions including audio, climate control, Bluetooth® telephone connectivity, trip computer and navigation.

OWNERSHIP EXPERIENCE

Service, assurance, and peace of mind are all part of the pride of owning your F-TYPE.

THE JAGUAR ACCESSORY RANGE†

Enabling you to personalise your car, to create a driving experience that is even more individually rewarding. All Jaguar accessories are tested rigorously for safety and durability in the most arduous of climates and conditions. A comprehensive range of styling options, interior and exterior accessories, enable you to tailor your F-TYPE to suit your personal style. The full range of Jaguar accessories is available to view online, please visit jaguar.co.uk for further information.

Any genuine Jaguar accessories (excluding gift items and luggage from Jaguar Collection) supplied and fitted by a Jaguar Retailer within one month or 1,000 miles (whichever occurs first) of a new vehicle being put into service will benefit from the same warranty terms and duration as the Vehicle Warranty. Accessories purchased outside of this period will be subject to 12 month unlimited mileage warranty.

BECAUSE ONLY THE BEST WILL DO

An official Jaguar Retailer or Approved Service Centre can ensure that Jaguar trained specialist technicians, with access to the full range of Jaguar approved parts and tools, will always be on hand to guarantee that every fitting, or repair, is carried out exactly the way Jaguar intended. Your Jaguar Retailer or Approved Service Centre can also supply and fit Jaguar approved accessories to personalise and add to the practicality and style of your F-TYPE.

SERVICE AND ASSURANCE*

Complete peace of mind including Competitively Priced Servicing, Seasonal Health Checks and Total Tyre Care to ensure that your Jaguar F-TYPE retains its premium condition, delivering optimal performance.

WARRANTY*

3 year warranty together with a 3 year Paint Surface Warranty and a 6 year Corrosion (Perforation) Warranty.

JAGUAR MAGAZINE

Jaguar Magazine is the official magazine of Jaguar Cars. It features the new Jaguar XE, XJ, XF and F-TYPE, and the worlds of luxury, style, design and travel. The fully interactive Jaguar Magazine iPad app takes the very best of the print edition of the magazine and adds extra images, and exclusive information, allowing you to explore Jaguar's world in a whole new way.

JAGUAR.CO.UK

Jaguar's official interactive website contains the latest information on Jaguar models and pricing. It also features helpful tools such as a dealer locator and a new model configurator allowing you to see the car tailored to your specification and colour.

JAGUAR FINANCIAL SERVICES*

Whether your requirements are business or personal please contact your retailer to discuss a range of finance and insurance products that can be tailored to meet your needs.

†All Jaguar approved accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out so that accessories are both durable and importantly, continue to comply with current legalisation.

*Terms and conditions apply. Please contact your Jaguar Retailer for more information.

IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

ENVIRONMENTAL INNOVATION AT JAGUAR

F-PACE, XF, XE, XJ and F-TYPE's innovative use of lightweight aluminium, which incorporates up to 50% closed-loop recycled material from the manufacturing process of the body structures, provides considerable performance benefits. This includes improved fuel consumption and less CO₂ emissions during the use phase of the Life Cycle due to lighter structures. Our on-going target is to ensure scrap aluminium reclaimed from our stamping process is to be segregated and recycled through a closed loop system and incorporated back into the same grade quality aluminium sheet, therefore reducing CO₂ emissions, versus the use of virgin aluminium sheets, during the production phase of the Life Cycle.

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development, called Environmental Innovation.

The company plan includes ongoing reduction in CO₂ emissions and the use of natural resources and at the end of 2014 we have achieved a 28% reduction in operating CO₂ emissions, 25% in the Company's European fleet average tailpipe emissions, 75% in waste to landfill, logistics efficiencies (18%) and water consumption (10%), all based on per vehicle built since 2007. In addition the manufacturing assembly CO₂ emissions of each Jaguar built in the UK since 2009, is 100% offset as part of our 2020 strategy for carbon neutral manufacturing assembly and since 2013 carbon-for-development projects form a key part of the company's Global Corporate Social Responsibility (CSR) programme.

For each tonne of CO₂ emitted in the assembly process, the company invests in emissions reductions projects that reduce an equivalent tonne of CO₂ elsewhere and provide social and humanitarian benefits at the same time.

Since 2013 the programme has offset 800,000 tonnes of CO₂ and improved the lives of over 2 million people from our award-winning Lifestraw carbon-for-water emissions reduction programme. Taking into account the company's global sales growth and increased investment in more efficient operating facilities, we are proud to have delivered and in some cases exceeded our Environmental Innovation targets as planned between 2012-2015.

But it doesn't stop there. Our manufacturing facilities have been certified to ISO14001 since 1998 and in 2013 the Company was recognised as the UK's Responsible Business of the Year by leading CR index, Business in the Community. In 2014 we built on this success through the Queens Award for Enterprise in Sustainable Development for 2014.

Looking forward, we have developed our 2020 vision for sustainable business growth that focuses on continued improvements in operating and tailpipe CO₂ emissions, carbon neutral manufacturing and zero waste. The company will also improve the lives of 12 million people by 2020 as part of the global Corporate Social Responsibility programme.
