JAGUAR

THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars' performance.
We innovate, we engineer, we design. We master rules and then break them.
Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

VEHICLES SHOWN ARE FROM THE JAGUAR GLOBAL RANGE. SPECIFICATIONS, OPTIONS AND AVAILABILITY WILL VARY BETWEEN MARKETS AND SHOULD BE VERIFIED WITH YOUR LOCAL JAGUAR RETAILER

INTRODUCTION
THE CONCEPT OF XE

The most advanced, efficient and refined sports saloon car that Jaguar has ever produced. Instantly recognisable as a Jaguar, it feels like a Jaguar, it drives like a Jaguar – XE is a Jaguar to its core.

XE is the foundation of the Jaguar saloon car family. A distillation of the design, luxury and technology found in XF and XJ. Inspired by our F-TYPE sports car, with its assertive looks and agile drive.

XE is an exceptional blend of technology, design, and driving dynamics that rewrites all the rules.
XE is a wake up call for every other car in its class.

VEHICLE SHOWN: XE S IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

XE -THE FACTS

XE brings together the latest Jaguar innovation, technology and design.

ADDED INTELLIGENCE

Innovative technologies make every drive easier and safer. XE offers Adaptive Bi-function Xenon Headlights, Adaptive Cruise Control with Queue Assist, and Advanced Park Assist.

EFFICIENCY AND PERFORMANCE

XE is capable of achieving a drag coefficient as low as Cd 0.28, one of the lowest in its class. It cuts through the air to improve efficiency and refinement. From the outright exhilaration of a supercharged V6 capable of up to 250km/h to the frugality of CO_2 emissions as low as 109*-111g/km with our turbocharged 4-cylinder diesel**, there are a range of engines to suit every driving style.

*109g/km applies to 17" wheels. **Market dependent.

The figures provided are as a result of official manufacturer's tests in accordance with EU legislation.
A vehicle's actual fuel consumption may differ from that achieved in such tests and these figures are for comparative purposes only.
Technical Data Figures shown are market dependent. Please contact your local dealer for regional specific data.

VEHICLE SHOWN: XE S IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

INFOTAINMENT

InControl Touch Pro is now available in XE. This next generation infotainment system offers a range of new features to enhance every journey. These include Digital Television* and Meridian Digital Sound Systems.

LIGHTWEIGHT ALUMINIUM ARCHITECTURE

XE's lightweight architecture creates an incredibly strong body – underpinning power with responsive handling, and refinement with beautiful design.

DESIGN
EXTERIOR PRINCIPLES

DYNAMIC PROPORTIONS | **MUSCULAR LOOKS**

"It's about paring it down to the bare essentials. Good designers have always said less is more." Ian Callum, Jaguar Design Director.

XE stands out from the competition with the clean surfaces and dynamic looks that form the core of Jaguar design. This is because XE's Lightweight Aluminium Architecture gave its designers the freedom to work alongside engineers to optimise the car's proportions – XE is unmistakably a Jaguar. The long, distinctly defined bonnet is aerodynamically sculpted to channel air over and around the body for greater efficiency. Along with the rising waistline and 'cab rearward' design, it ensures that XE shares the athleticism of the other cars in the Jaguar range. XE is crouching, ready to pounce.

VEHICLE SHOWN RIGHT: XE S IN ITALIAN RACING RED
WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

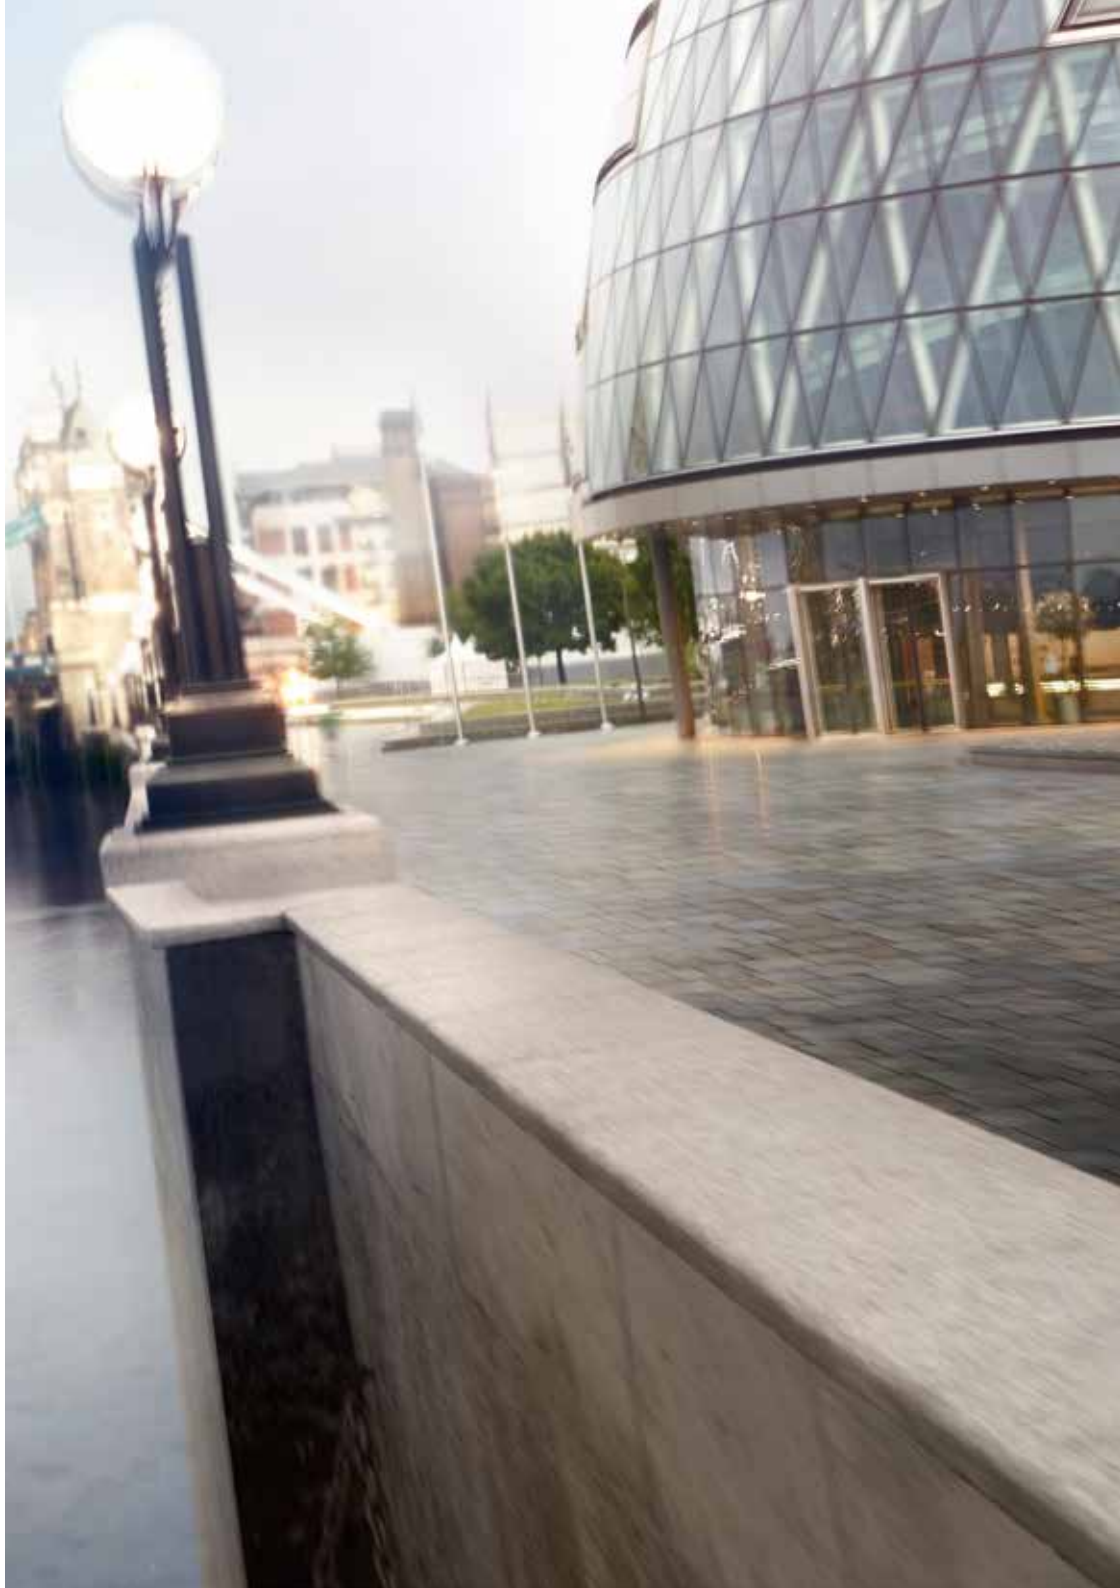
EXTERIOR DETAIL

INNOVATIVE DESIGN

One glance at XE and you know that it could only be a Jaguar. From the headlights featuring Jaguar signature 'J' blade Daytime Running Lights*, the powerfully sculpted bonnet, and the chrome side vents, stamped with the Jaguar name, all the way to those distinctive rear haunches. Only Jaguar, as a world leader in aluminium car construction, has the technology and expertise to create sharper creases from deeper, more innovatively formed pressings. The body side curvature of XE is aerodynamically honed to sweep air seamlessly rearwards to the tail. The deliberately cropped rear has a short overhang, underscoring the car's performance credentials and enhancing airflow. It culminates with those iconic tail lights that are inspired by the F-TYPE sports car.

*Available with Bi-function Xenon and Adaptive Bi-function Xenon headlights only.

VEHICLE SHOWN: XE R-SPORT IN BLUEFIRE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)



XDY 446

JAGUAR

JAGUAR

INTERIOR

COCKPIT FEEL | **EXTENSIVE CHOICE**

Connect with XE the moment you slide into the form-hugging seats – you sit low in a Jaguar. Next to you the raised centre console adds to the cockpit feel.

Pulsing with a heartbeat, the car creates an emotional connection between driver and machine. Its 72 per minute double beat is the same as a jaguar cat at rest. Press the Start button and XE awakes, the needles sweep, the engine growls. On cars with automatic transmissions, the JaguarDrive Selector rises to greet your hand.

The outer air vents are unique in the way that they extend the facia to nestle in the door casings and give the feeling of width and space. Throughout XE the natural forms of the interior architecture lend themselves to the extensive choice of contemporary or traditional materials and finishes. XE is an inspired place for driver and passengers to be.

INTERIOR SHOWN LEFT AND PREVIOUS PAGE: XE S FEATURING RED LEATHER SPORT SEATS WITH JET SUEDECLOTH INSERTS WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

PERFORMANCE

ENGINES

INGENIUM ENGINES* | **STOP/START* TECHNOLOGY**

XE's power is delivered by a range of highly advanced petrol and diesel* engines, including a 4-cylinder turbocharged diesel engine from our Ingenium engine family. Whether you choose our latest hi-tech diesel* engine or you prefer petrol, each one offers performance, refinement and economy to suit every driving style. XE's engines are equipped with Stop/Start* technology and smart regenerative charging – harvesting kinetic energy from braking to charge the battery – for maximum economy, especially during urban driving. For information on fuel consumption, CO_2 emissions and performance figures for XE engines, please refer to pages 88 to 89.

INGENIUM DIESEL* ENGINES FROM

109**-111g/km CO_2

XE is offered with a diesel engine from our Ingenium range: the 2.0 litre 4-cylinder turbocharged diesel (180PS) producing 430Nm of torque. Ingenium is Jaguar Land Rover's new breed of engine designed for effortless performance, refinement and efficiency. With advanced technology and all-aluminium construction, Ingenium delivers impressive fuel consumption and CO_2 emissions. Up to 20kg lighter than equivalent previous generation engines, Ingenium is intrinsically more efficient. And intelligent too – computer controlled, adaptive engine cooling only engages as required. The latest generation variable geometry turbocharger maximises peak power for low speed torque and responsiveness that is uniform, progressive and avoids lag. Internal friction – the enemy of performance and efficiency – is up to 17 percent lower in the Ingenium range than previous generation engines.

*Market dependent.
**109g/km applies to 17" wheels.

The figures provided are as a result of official manufacturer's tests in accordance with EU legislation.
A vehicle's actual fuel consumption may differ from that achieved in such tests and these figures are for comparative purposes only.
Technical Data Figures shown are market dependent. Please contact your local dealer for regional specific data.

PETROL ENGINES UP TO

0-100km/h in 6.8 seconds

XE's 4-cylinder petrol engines offer power and responsiveness throughout the rev range, while improving efficiency. The 2.0 litre 4-cylinder turbocharged petrol (200PS) and the 2.0 litre 4-cylinder turbocharged petrol (240PS) engines both achieve 6-cylinder engine levels of performance and refinement from a more compact and economical structure.

SUPERCHARGED PETROL ENGINE

0-100km/h in 5.1 seconds

The 3.0 litre V6 supercharged petrol engine has been adapted for the specific requirements of XE. A Roots-type twin vortex supercharger is mounted in the 'V' between the two rows of cylinders for compact dimensions. Supercharging provides linear delivery of power and maximises responsiveness. This results in performance matching much larger engines, while optimising economy and reducing emissions. The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance and efficiency. For added refinement there is a twin, contra-rotating balancer shaft system. The V6 supercharged petrol engine is available with Rear Wheel Drive Automatic transmission only.

A vehicle's actual fuel consumption may differ from that achieved in such tests and these figures are for comparative purposes only. Technical Data Figures shown are market dependent. Please contact your local dealer for regional specific data.

AUTOMATIC TRANSMISSION

EIGHT-SPEED AUTOMATIC TRANSMISSION

XE's automatic transmission is highly responsive, smooth and efficient. It delivers rapid shifting for effortless acceleration and overtaking. The intelligent, adaptive system subtly changes the way the throttle delivers power, as well as gearshift patterns, to suit each particular driving circumstance. The JaguarDrive Control offers even quicker shifts and sportier kick-down in Dynamic Mode, and earlier up-shifts in Eco Mode. With the automatic transmission the driver can opt to manually control gearshifts, via steering wheel paddles, at the touch of a finger.

P
R
N
D

ADVANCED AERODYNAMICS

ADVANCED AERODYNAMICS | **HIGHLY EFFICIENT**

XE's form has been rigorously optimised for aerodynamic efficiency and stability. With a drag co-efficient as low as Cd 0.28, XE cuts through the air – reducing fuel consumption and lowering emissions. Every element exploits the exterior's maximum aerodynamic potential while preserving XE's stunning proportions. Vertical apertures in the front bumper's outer edges channel air through vents in the wheel arches and out over the front wheels. Even the race car-inspired underbody protection and diffuser is designed to make XE as efficient, economical and refined as possible.

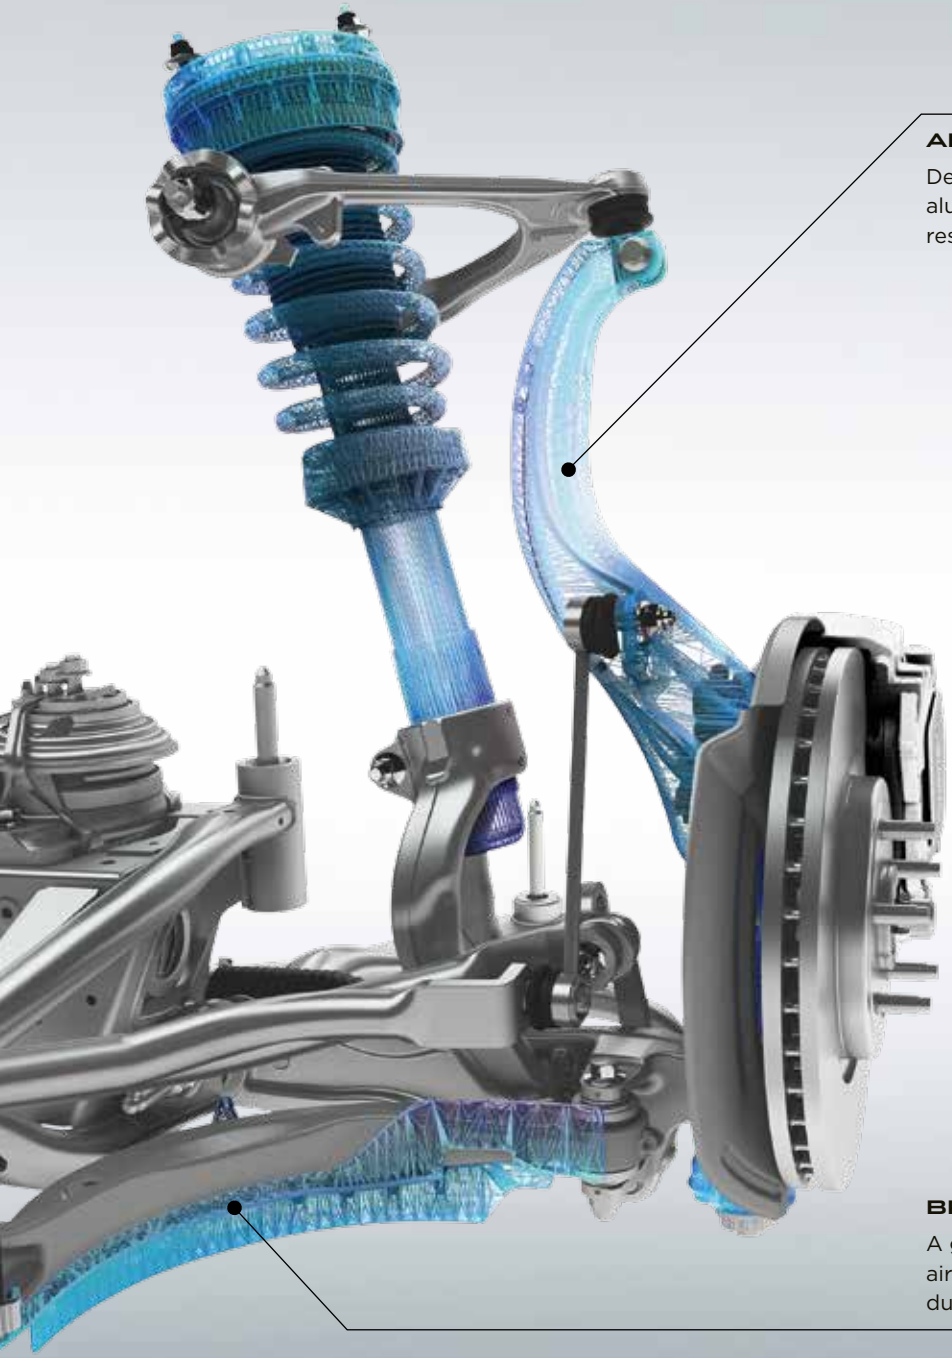
VEHICLE SHOWN: XE R-SPORT IN BLUEFIRE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

LIGHTWEIGHT ALUMINIUM ARCHITECTURE

PERFECT BALANCE | **STRONG AND LIGHTWEIGHT**

Jaguar has been at the forefront of aluminium car construction for more than a decade and continues to push the boundaries of this technology. XE is based on our Lightweight Aluminium Architecture, which uses expertise derived from the aerospace industry to deliver premium vehicle characteristics in performance and refinement. This immensely strong bodyshell uses a high strength 6000 series aluminium alloy. Saving weight without compromising durability, it provides very high torsional stiffness, supporting precise handling. It helps achieve optimum weight distribution approaching 50:50. The lightweight structure not only reduces fuel consumption and CO_2 emissions, it means that the XE range is able to encompass everything from as low as 109*-111g/km to a maximum speed of up to 250km/h.

*109g/km applies to 17" wheels.



ALUMINIUM FRONT KNUCKLE

Designed to optimum stiffness and strength, the lightweight aluminium front knuckle helps improve XE's agility, responsiveness and refinement for sports car-like control.

CHASSIS AND SUSPENSION

UNIQUE SUSPENSION TECHNOLOGY | **COMFORTABLE AND DYNAMIC**

XE responds with agility and performs with dynamism while always maintaining ride comfort – it's a unique balance that makes it a Jaguar. The ideal foundation for these driving dynamics is XE's light, yet exceptionally strong and stiff, Lightweight Aluminium Architecture with its near 50:50 weight distribution.

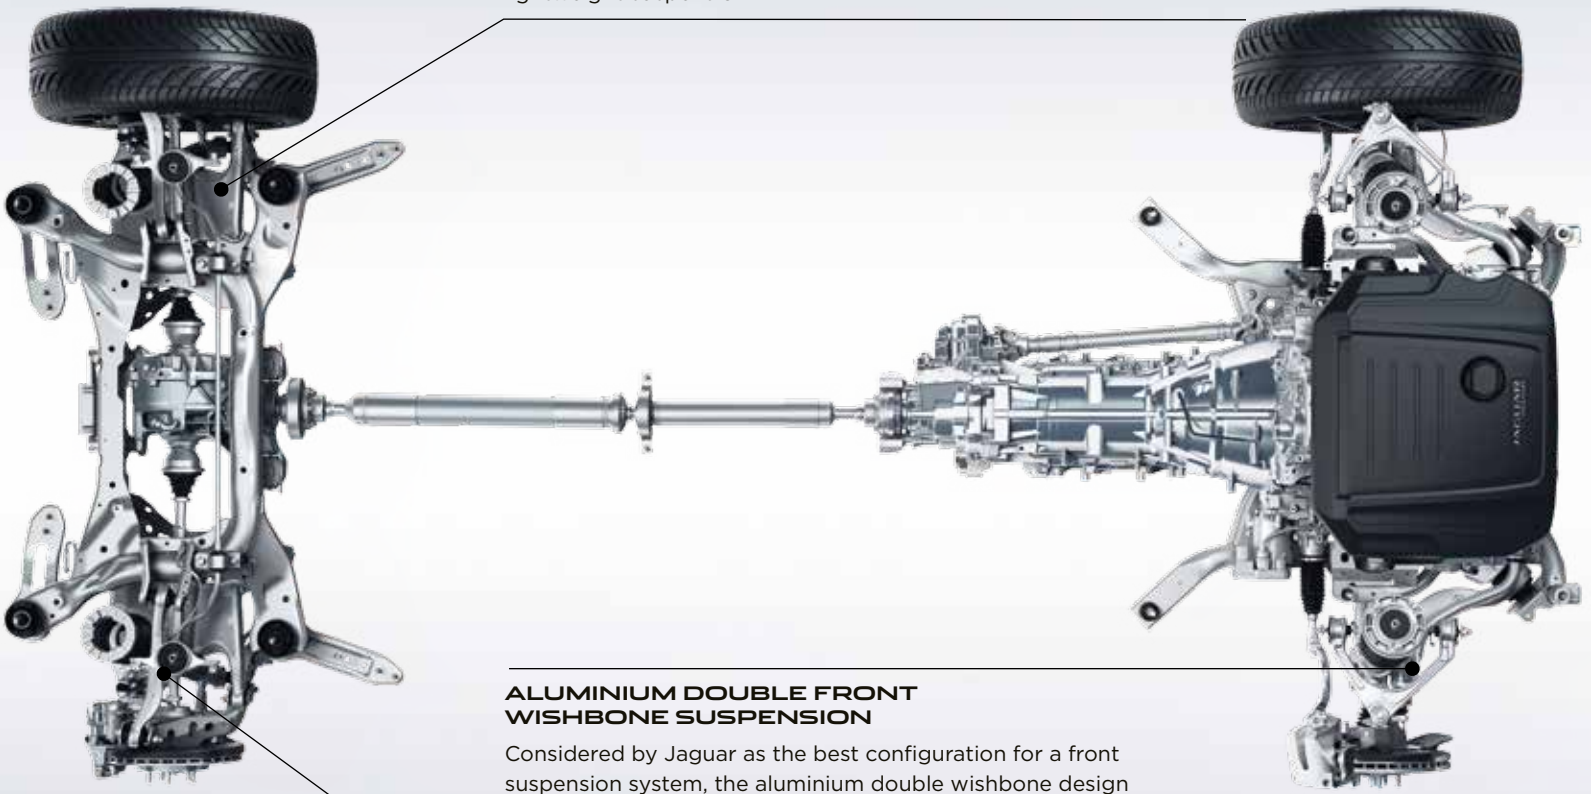
The sophisticated front and rear suspension systems complete a chassis that achieves a superb combination of sportiness and refinement. Advanced damper technologies – both passive and adaptive – improve ride quality still further and extend XE's breadth of dynamic capability. The suspension's control, agility and feedback give XE the spirit of a sports car.

BRAKE SCOOP

A glass-filled polypropylene brake scoop channels air onto the brakes for enhanced brake performance during enthusiastic driving.

INTEGRAL LINK REAR SUSPENSION

Integral Link rear suspension allows XE to realise a perfect combination of a refined, luxurious ride and sharp, responsive handling. The system, the benchmark for this class of car, separates and independently manages the lateral, longitudinal and vertical forces acting on the suspension for enhanced control and comfort. Many components are forged or hollow-cast in aluminium – the optimum production techniques for strong, lightweight suspension.



ALUMINIUM DOUBLE FRONT WISHBONE SUSPENSION

Considered by Jaguar as the best configuration for a front suspension system, the aluminium double wishbone design is modelled closely on F-TYPE's for precise handling and steering response.

ADAPTIVE DYNAMICS

The optional Adaptive Dynamics system delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. The system adjusts the dampers to provide the optimum balance between comfort and refinement at all times.

ADVANCED DRIVING DYNAMICS

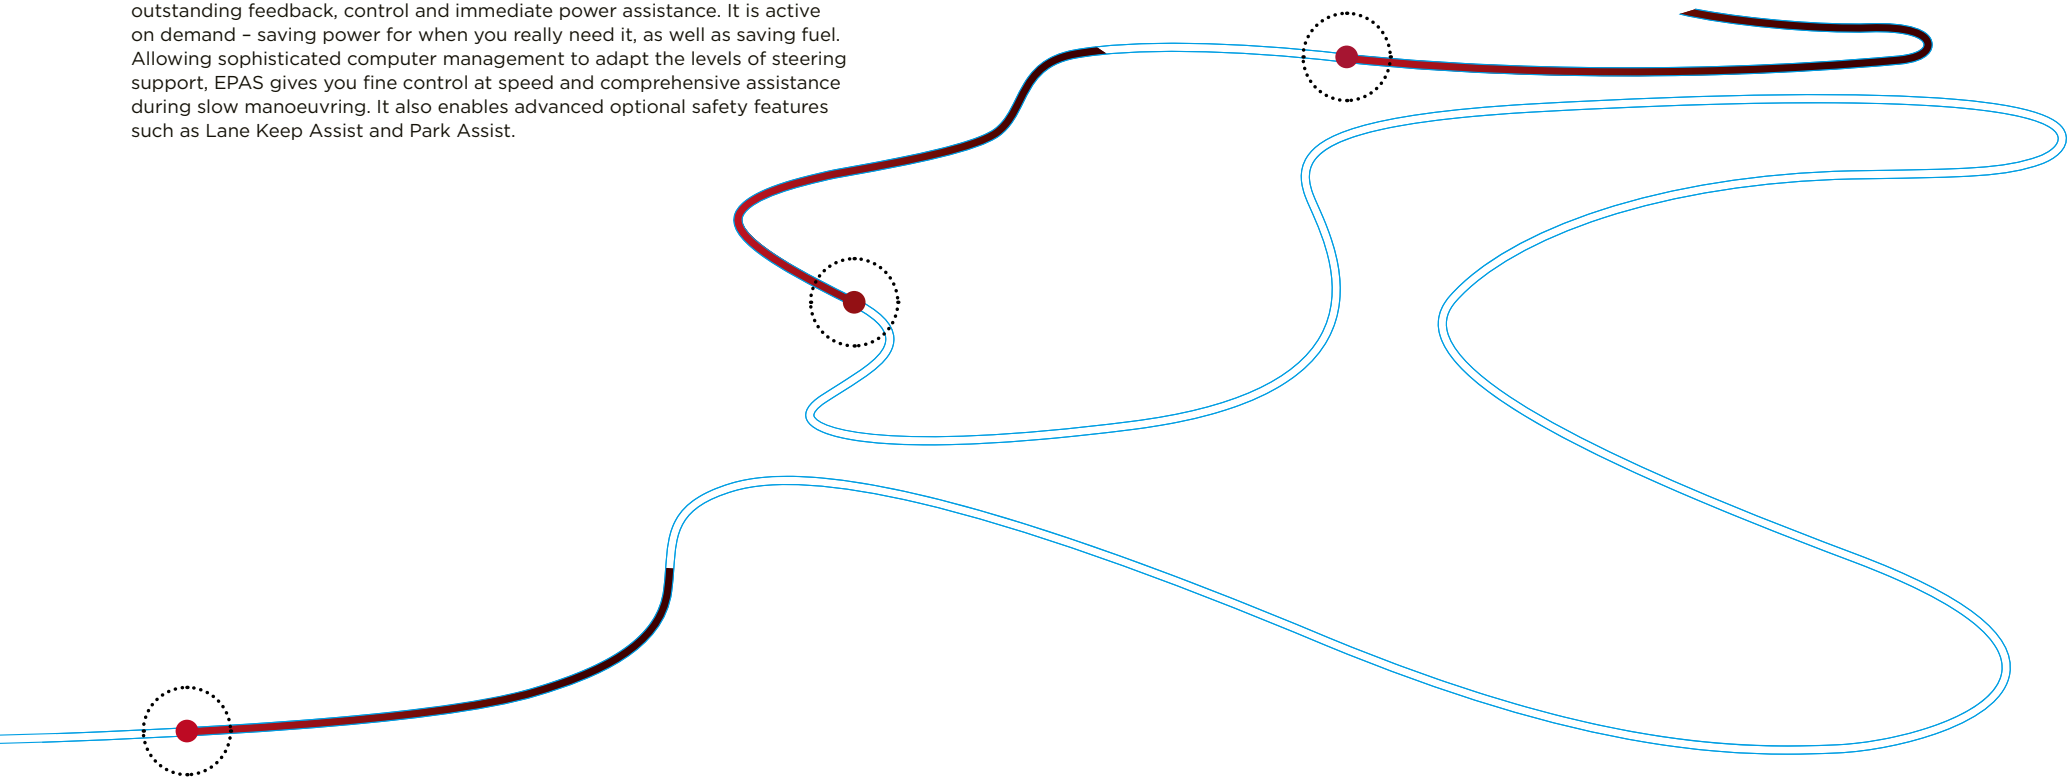
MAXIMISING AGILITY | CONTINUOUSLY ADAPTING

ADAPTIVE DYNAMICS

Whether you're accelerating on the motorway, cornering on country roads or navigating around town, optional Adaptive Dynamics modifies XE's response to match the conditions and your driving style. It analyses acceleration, cornering, throttle and brake pedal activity, as well as kick-down activation. Steering and body movement are also analysed up to 500 times a second. Using this information, electronically controlled adaptive dampers then constantly adjust to optimise the suspension settings and maintain XE's poise and comfort.

ELECTRIC POWER ASSISTED STEERING

XE's next generation Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and immediate power assistance. It is active on demand – saving power for when you really need it, as well as saving fuel. Allowing sophisticated computer management to adapt the levels of steering support, EPAS gives you fine control at speed and comprehensive assistance during slow manoeuvring. It also enables advanced optional safety features such as Lane Keep Assist and Park Assist.



NEXT GENERATION BRAKING

XE's next generation braking system is optimised for high performance and to save weight. Air deflectors fitted to the front suspension efficiently channel air to cool the brakes and reduce the risk of fade during enthusiastic driving. While new technology in the pads reduces dust to improve refinement, increase disc life and maintain the clean appearance of the wheels.

ALL SURFACE PROGRESS CONTROL

ADDED DRIVER CONFIDENCE

Unique in this class of car, Jaguar's All Surface Progress Control (ASPC) technology is a low speed cruise control that helps XE to cope with low traction situations. ASPC allows the driver to concentrate on steering the vehicle. Once activated, you use the cruise control buttons to set a 'target' speed of between 3.6km/h and 30km/h. The system then works to achieve and maintain that speed while exerting optimum traction control. ASPC is available on all engines fitted with automatic transmissions and gives XE drivers added confidence over slippery, loose or icy surfaces, undulating terrain and even while descending a difficult incline. It helps make XE easy to drive in challenging conditions. ASPC also has a pull-away function allowing XE to progress from rest on slippery surfaces and ascending gradients, as well as a hill descent function that controls vehicle speed on steeper inclines.

MUD/GRAVEL

With any given set of tyres, ASPC can accomplish comparable levels of traction to that achievable by an expert driver. Fitting All Season or Winter tyres to XE can improve capability on slippery surfaces.

WET GRASS

SNOW/ICE

WET ROAD

TORQUE VECTORING APPLIES BRAKE PRESSURE TO SLOW THE INSIDE FRONT AND INSIDE REAR WHEELS INDEPENDENTLY.

POWER IS SUSTAINED TO MAINTAIN CONSTANT SPEED OF OUTER WHEELS.

ADDITIONAL ROTATIONAL FORCE APPLIED AROUND VEHICLE'S AXIS.

TORQUE VECTORING

TORQUE VECTORING BY BRAKING

XE's Torque Vectoring by braking maximises capability through even the tightest of corners. Torque Vectoring technology provides controlled independent braking on the individual inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports the most increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding. Torque Vectoring delivers increased sports car-like agility and added driver confidence.

VEHICLE SHOWN: XE S IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

STABILITY AND CONTROL

DYNAMIC STABILITY CONTROL | **ENGINE DRAG TORQUE CONTROL** | **TRAILER STABILITY ASSIST**

Jaguar's Stability Systems keep XE safely balanced whether you're driving enthusiastically or simply want the assurance of a car that will remain stable in challenging conditions.

Dynamic Stability Control (DSC) monitors XE's dynamic behaviour, intervening to maximise vehicle stability and optimising available grip. DSC reduces engine torque and applies braking to the appropriate wheels to correct the car's direction of travel by counteracting understeer or oversteer. XE's DSC system has enhanced understeer control to reduce speed and regain control more effectively.

Engine Drag Torque Control (EDC) mitigates the chance of wheel slip caused by strong engine braking in adverse driving conditions. It acts by briefly increasing torque to the wheels as appropriate.

Trailer Stability Assist (TSA) gives you greater stability when towing. Should TSA detect a dangerous trailer sway situation is developing, it can help you regain control by gradually reducing XE's speed through lowering engine power and applying the brakes individually on each side of the vehicle to control the sway.

HEAD-UP DISPLAY

HEAD-UP DISPLAY WITH LASER TECHNOLOGY

The optional Head-Up Display (HUD) with laser technology projects key information onto the windscreen. Remaining clear even in direct sunlight, the crisp, bright image can display vehicle speed, navigation, cruise control notifications and Forward Alert data. This technology helps you minimise time spent looking down at the instrument cluster and can help you maintain continuous awareness of the car's speed.

Please consult your local Jaguar retailer for further details.

INCONTROL TOUCH

ADVANCED INFOTAINMENT AS STANDARD

The InControl Touch multimedia system is XE's hub for connectivity, control and entertainment. The key features are:

8 inch Touch-screen at the heart of the centre console. Clear and responsive graphical interface for quick control.

Easy to use Touch-screen responds directly to touch and swipe gestures.

Navigation guidance* makes planning journeys and following routes easy, thanks to turn-by-turn voice guidance, junction view and 3D maps. 'Dead-reckoning' functionality can accurately position the vehicle even when GPS signals can no longer be received – perfect for city centres or driving through tunnels.

Bluetooth phone connectivity allows you to link and control your smartphone via InControl Touch either for phone calls or music playback: simple, easy and wire-free.

Access a world of music thanks to FM, Satellite and HD radio (subject to regional fitment), as well as USB** and AUX connections.

Integrated text-to-voice† technology reduces distraction by reading out incoming text messages. You can easily respond with short, prepared messages.

Precise climate control is available via the Touch-screen. Adjust temperature levels, direction and intensity of airflow and operate heated or climate seats (if fitted).

10.2 INCH TOUCH-SCREEN SHOWN AT ACTUAL SIZE

Audio	Standard: Meridian Digital Sound System (380W) Optional: Meridian Digital Surround Sound System (825W)
Navigation Guidance	InControl Touch Pro SSD Enhanced Navigation
Display	10.2 inch Capacitive Touch-screen
Multimedia	FM Radio, Bluetooth®, HDMI†‡, MHL†‡ and 2 x USB**‡ connections. Digital TV*‡, 10GB of usable memory and CD/DVD Drive

*Optional features. **Supports compatible music players. †Only available with InControl Connect Pro. ‡Market Dependent.

As we systematically introduce InControl, specific features, options and its availability remain market dependent.
Please consult your local Jaguar retailer for further details.

INCONTROL TOUCH PRO

UPGRADE TO NEXT GENERATION INFOTAINMENT

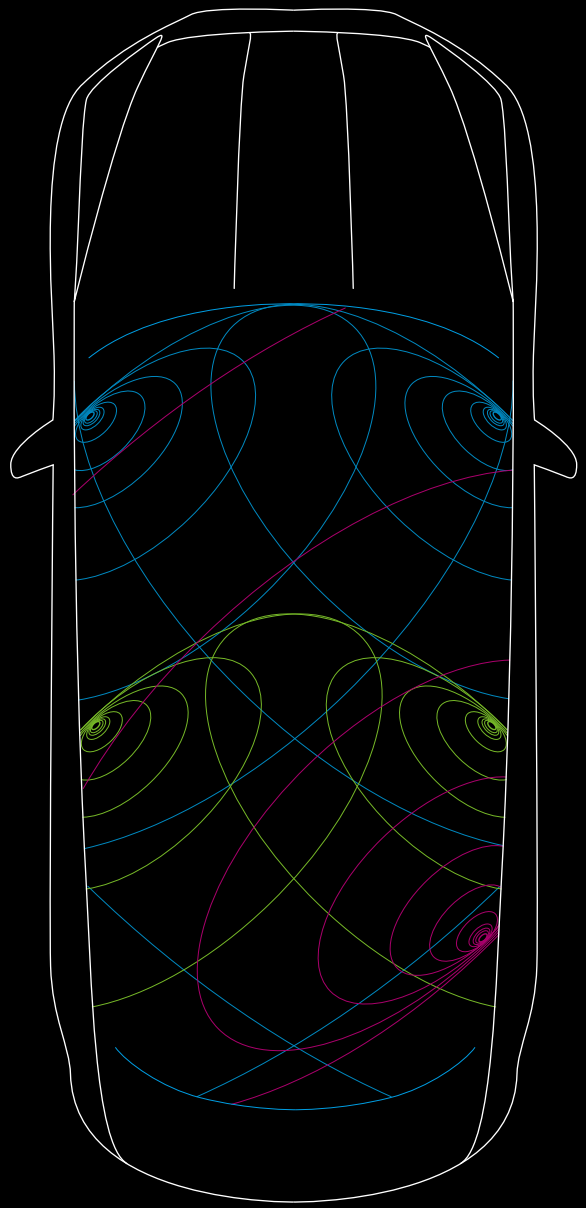
InControl Touch Pro's next generation hardware and software advances XE's connectivity and entertainment to the very highest level. InControl Touch Pro's features enhance those found in InControl Touch. The key aspects of InControl Touch Pro are:

Larger, highly-responsive, 10.2 inch Touch-screen at the heart of the centre console with customisable home screen and lightning fast response times. Its interactive side panel makes multi-tasking easy.

Pinpoint touch control allows you to manipulate and interact with information swiftly and seamlessly. The Touch-screen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch to zoom and swipe.

Enhanced Navigation with response times that are a fraction of conventional systems. One of the many innovative features of InControl Touch Pro's Navigation is that it allows you to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays filling stations on the part of the route where you may be low on fuel. The system automatically displays parking options where available.

Personal media storage of 10GB of usable memory for your music and movies. 'Plug and play' using the two USB ports allowing for fast transfer speeds.



MERIDIAN

AUDIO

JAGUAR SOUND SYSTEM | MERIDIAN DIGITAL SOUND SYSTEM

XE's superb sound systems bring your music to life. Offering an enhanced listening experience are the optional Meridian Sound Systems. Designed in conjunction with the British audio experts Meridian, these systems use innovative audio technology and precise speaker placement to give perfectly optimised sound quality.

Choose from a range of audio systems, including the new digital 380W Sound System with 11 speakers or the new digital 825W Surround Sound System with 17 speakers. All systems ensure that, wherever you or your passengers sit in your XE, everyone will enjoy a rich, enveloping audio experience.

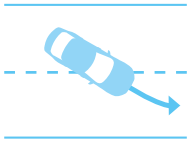
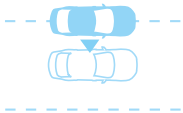
VEHICLE SHOWN: XE PURE IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

ADVANCED DRIVER ASSISTANCE



1 LANE DEPARTURE WARNING*

Lane Departure Warning (LDW) notifies the driver with a visual alert and a gentle vibration of the steering wheel should the car detect an unintentional drift from its lane, helping to keep everyone on board safe.



2 LANE KEEP ASSIST AND DRIVER CONDITION MONITOR**

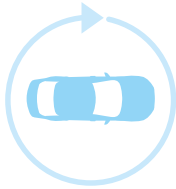
Building on Lane Departure Warning, Lane Keep Assist (LKA) senses unintentional lane drift and helps steer XE back into its lane. Driver Condition Monitor (DCM) detects lapses in concentration due to tiredness by monitoring driver inputs and suggests taking a break via an audible alert and a visual notification in the instrument cluster.

3 BLIND SPOT MONITOR AND REVERSE TRAFFIC DETECTION**

Blind Spot Monitor alerts you to vehicles or obstacles beside XE, as well as ones approaching from a distance behind, via an icon displayed in the appropriate exterior mirror. Reverse Traffic Detection extends the Blind Spot Monitor function and alerts you via the Touch-screen of moving vehicles during reversing – for example, when leaving a parking bay with restricted vision.

4 PARK ASSIST**

Park Assist makes parking in tight spaces easier than ever. XE can accurately steer itself during both parallel and bay parking manoeuvres – the driver only has to control the brakes and accelerator. An exit-assist function can help guide XE while leaving a parallel space.



5 SURROUND CAMERA SYSTEM**

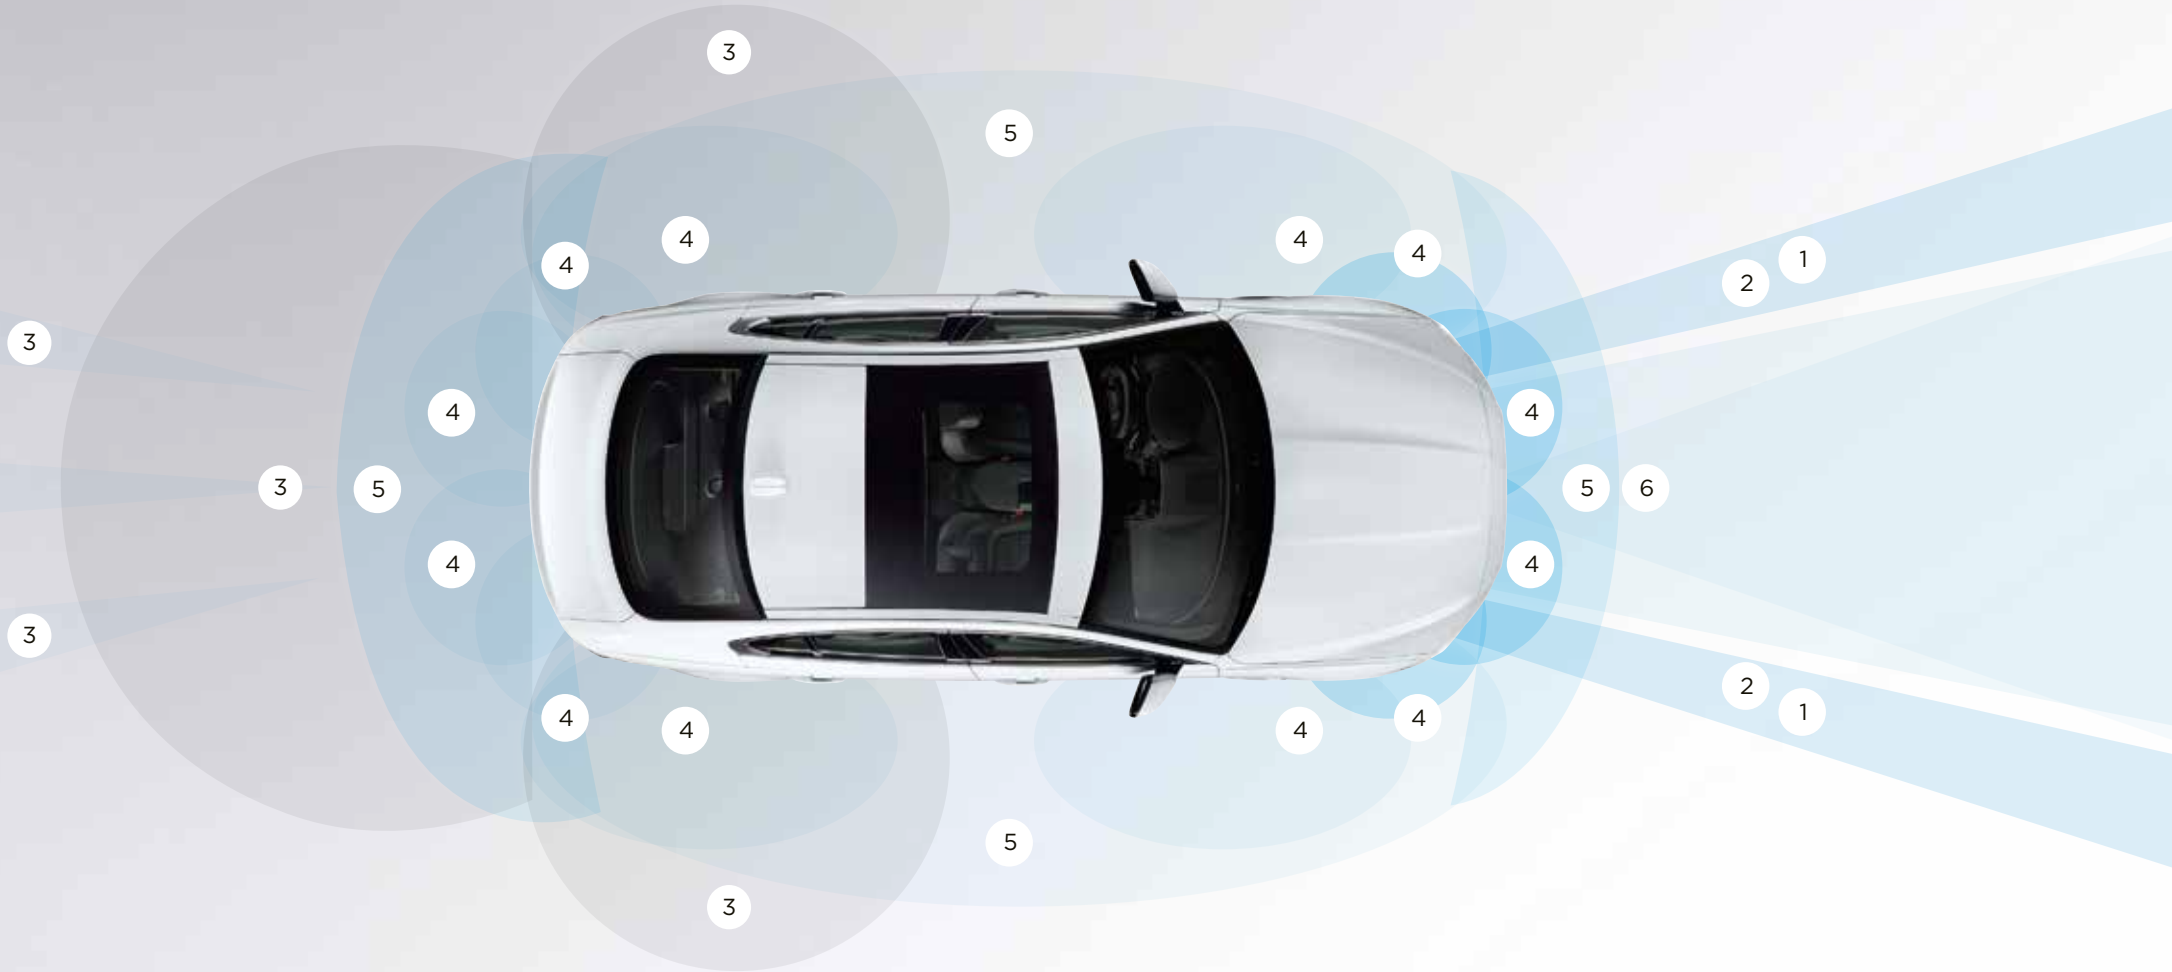
Surround Camera System gives you 360° exterior vision on the Touch-screen. This helps with various manoeuvres from parking by a kerb to getting in and out of tight spaces and junctions.

6 ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST**

Adaptive Cruise Control uses radar technology to automatically adjust your speed to maintain a safe distance from the vehicle ahead. If that vehicle slows, your XE reduces its speed to maintain a safe distance. XE resumes its pre-set speed as soon as the road in front is clear. Should the car in front stop completely, the Queue Assist function brings XE to a smooth halt. Once the traffic moves off, touch the accelerator and XE will follow the car in front again.

*Standard feature, availability and fitment is market dependent.
**Optional features, availability and fitment is market dependent.

VEHICLE SHOWN: XE PURE IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)



Graphical representation only.

EFFICIENT TECHNOLOGIES

LOW FRICTION | **CLEAN TECHNOLOGIES**

Everyone wants to do more with less. That is why XE uses a range of technologies to reduce fuel consumption and CO_2 emissions, all while staying true to Jaguar's dynamic nature.

STOP/START

All XE's engines are available with Stop/Start*. It shuts down the engine when you come to a complete halt and restarts the engine immediately when required to help save fuel, especially during urban driving. XE's air conditioning system will continue to operate as normal during engine shut down. The engine is automatically restarted if the cabin is not being cooled efficiently.

*This is market dependent.

ADVANCED AERODYNAMICS

XE can offer an incredibly low drag co-efficient of Cd 0.28. This helps XE cut through the air with ease, meaning less work for the engine and therefore reduced fuel consumption and emissions.

LOW FRICTION TECHNOLOGIES

Technologies such as smart coatings on XE's pistons and needle roller bearings in the Ingenium engine range help to reduce friction, particularly at low engine temperatures. This helps the car perform at its efficient best.

6 CHOOSE YOUR JAGUAR ACCESSORIES

To find out more about the full range of retailer fit Jaguar Accessories, please refer to your retailer or go to accessories.jaguar.com

Roof Mounted Cycle Carrier*
C2A1539

An easy to fit, roof mounted, lockable cycle carrier which carries one bike per holder. A maximum of three holders can be fitted.

*Requires Roof Cross Bars T4N4709. **Not available on Pure. †Offered for models fitted with space saver spare wheel only.

VEHICLE SHOWN: XE S IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

Personalised Illuminated Sill Treadplates**
T4N7511

Elegantly styled stainless steel sill treadplate finishers for driver or passenger doors. Illuminates when either the driver or passenger doors are opened. Highlighted by soft Phosphor Blue lighting. Allows customer to specify a monochrome 'motif' in a choice of approved typefaces/scripts.

Aluminium Gearshift Paddles
T2R6547MMU

Replacement steering wheel gearshift paddles offered in a premium aluminium material providing a high quality finish to a key contact point in the vehicle. Manufactured from billet machined aluminium, the paddles are hand brushed for a premium finish and anodised to ensure they will not deteriorate with wear.

iPad® Holder
T2H7757

Jaguar branded iPad® holder mounts to front seat headrests providing a flexible solution for rear seat entertainment. Quick release design ensures iPad® can be fitted or removed quickly and easily.

Sport Pedal Covers
T2H3747 – Manual Transmission Vehicles
T2H3746 – Automatic Transmission Vehicles (not shown)

Made from stainless steel and rubber, the pedal kit fits securely over existing pedals for a contemporary, sporting appearance.

Premium Carpet Mats
T4N7146 PVJ – Jet
T4N7146 AMT – Oyster

Luxurious, tailored 2,050g/m² pile front carpet mats with embossed Jaguar logo and nubuck edge binding. The premium mats provide a well appointed finishing touch to the interior.

Premium Luggage Compartment Carpet Mat†
T4N7147PVJ

Luxurious soft luggage mat in Jet Black with the Jaguar logo. Deep premium 2,050g/m² pile with nubuck edging and Dove contrast stitch.

Gloss Black Side Power Vent
T4N5176 – Left Side
T4N5178 – Right Side

Gloss Black side power vents provide a dynamic exterior styling enhancement.

Carbon Fibre Side Power Vent
T2H6208 – Left Side
T2H6209 – Right Side

High grade Carbon Fibre side power vents provide a performance-inspired styling upgrade.

Chrome Grille*
T4N3033

Provides a Chrome finish to the grille surround and bumper beam accentuating the XE's luxury appearance.

Gloss Black Mirror Cover
C2D6066PEC – Left Side
C2D6067PEC – Right Side

Gloss Black mirror covers accentuate the dynamic design of the exterior mirrors.

Carbon Fibre Mirror Cover
C2P24176 – Left Side
C2P24177 – Right Side

High grade Carbon Fibre mirror covers provide a performance-inspired styling upgrade.

Chrome Mirror Cover
C2D5489 – Left Side
C2D5488 – Right Side

Chrome mirror covers accentuate the stylish design of the exterior mirrors.

*Standard on Portfolio. **Requires roof cross bars T4N4709. †For Pure, Prestige and Portfolio.

Roof Cross Bars
T4N4709

Jaguar branded cross bars required for fitting all roof carrying equipment. Engineered specifically for your vehicle.

Watersports Carrier**
C2Z21730

A versatile system for transporting a variety of water sports equipment including surfboard, kayak or sailboard. Tilts to facilitate loading/unloading.

Roof Sport Box**
C2C41627

Spacious 320 litre capacity lockable roof box designed for sports equipment, measuring 206 x 84 x 34cm.

Chrome Front Splitter†
T4N7599

Give XE an even more stylish look with this bright finish front splitter blade. Body coloured rear spoiler is also available. (T4N5462LML)

Rear Splash Guards
T4N7514

Jaguar branded, rear splash guards complement the lines of your vehicle and provide protection from dirt and stone chippings.

Tow Bar Mounted Cycle Carrier
C2Z22695 – Two Bike Carrier
C2Z22697 – Three Bike Carrier

Premium tow ball mounted cycle carriers provide a convenient bike carrying solution with quick release loading attachments and secure locking mechanism. Clever design allows carrier to be tilted away from vehicle when fitted allowing access into the rear tailgate.

JAGUAR EXPERIENCE

There's no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit. Jaguar Experience also offers the opportunity to see a Jaguar brought to life during a tour of one of our UK manufacturing facilities.

Find out more by visiting jaguar-me.com

BEHIND THE SCENES

Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life – from the moulding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you'll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar's most breathtaking cars – from the powerful F-TYPE to the groundbreaking F-PACE performance SUV.

Find out more at jaguar-me.com

DRIVING EXPERIENCES

The opportunity to drive the latest Jaguar cars at their limits, or relive iconic Jaguar history, is rare. Jaguar Driving Experiences offer unique driving adventures you will never forget. Imagine yourself behind the wheel of our highest performing Jaguar models, on a private track, with a Jaguar Experience Instructor at your side. This is the Jaguar Performance Driving Academy.

Find out more at jaguar-me.com

ICONIC EXPERIENCES

Take your driving to the next level with our international adventures facing extreme road, and off-road, conditions. Our Iconic Experiences offer journeys and challenges that will test and develop your performance driving skills. Every year, Jaguar customers and enthusiasts join us for our luxury Ice Driving Experience. The exclusive ski resort in Gstaad, Switzerland, is the perfect location to enjoy the thrill of performance driving on ice. Our Ice Driving Experience is a two-day getaway held each winter. You can get a flavour of the event below. Then, if you'd like to be part of it in the next experience, we can keep you posted.

Find out more at jaguar-me.com

THE WORLD OF JAGUAR

Choose an XE and you're joining the exciting World of Jaguar. It makes owning and driving carefree and easy, as well as providing a range of exclusive services and lifestyle products.

SERVICING

XE has been designed to keep servicing costs to a minimum – for example, the new Ingenium diesel engines can achieve an incredible 34,000km or 2 years* between services due to intelligent design and advanced oil technology.

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your XE to contribute to optimum performance and to help maximise its lifespan.

JAGUAR FINANCIAL SERVICES

Effortless performance and style come as standard with every Jaguar. Jaguar Financial Services makes buying one just as simple and rewarding. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your local Jaguar retailer to find out more.

JAGUAR ASSISTANCE

Jaguar Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

LOW INSURANCE

XE's key components are easily accessible for time-efficient service and repair and to minimise scheduled maintenance and repair costs. With a focus on lower repair costs, XE delivers competitive insurance group ratings†. To find out more about the compelling business case for XE, please contact your local Jaguar retailer.

FLEET & BUSINESS

Jaguar is dedicated to being the premium manufacturer of choice for fleets and businesses by providing a highly attractive car range and exemplary customer service. Jaguars are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing totally customer-focused aftersales services, which keeps every Jaguar car on the move and in top condition, ensuring that they perform to the highest standard and in the most cost-efficient way for businesses. Visit jaguar-me.com

JAGUAR MAGAZINE

Jaguar Magazine is the official magazine of Jaguar Cars. It features the new Jaguar F-PACE, F-TYPE, XJ, XE and XF, and the worlds of luxury, style, design and travel.

JAGUAR COLLECTION

The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our cars. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage we also have a collection that honours past achievements and features race-inspired gift items and apparel. To find out more, visit the online shop at www.jaguar.com/shop

GLOSSARY

A

AUDIO EQUALISATION
Audio Equalisation lets you fine tune the sound of your car's audio system by giving you tone adjustment not covered by standard treble, mid-range, and bass controls.

C

Cd
The Cd value is the drag coefficient of the car. It gives an indication of the vehicle's aerodynamic qualities. The lower the value, the more aerodynamically efficient the vehicle's design.

D

DAMPERS/DAMPING
Dampers absorb forces acting on the suspension for greater ride comfort and control. Dampers are also known as shock absorbers.

DRAG COEFFICIENT
The drag coefficient measures how aerodynamic a car is. See definition of Cd.

DSP AMPLIFIER
Meridian's Digital Signal Processing (DSP) technology analyses a range of variables that may impact audio quality, then processes them using sophisticated algorithms and adapts the system's output accordingly. This enables a level of powerful, authentic performance impossible with a conventional sound system.

E

ECO MODE
Eco Mode encourages fuel efficient driving by reducing throttle sensitivity, selecting more economical engine mapping and, on manual vehicles, advising of gear shifts. It also reduces fuel consumption by reducing the energy demands placed on the engine by climate control and audio systems.

J

JAGUARDRIVE CONTROL
Interacts with the Dynamic Stability Control system, engine and transmission management systems to alter the characteristics of the engine mapping, gear shifts and brakes. It offers different modes designed to optimise the vehicle's response to particular driving conditions and styles.

'J' BLADE DAYTIME RUNNING LIGHTS
'J' blade Daytime Running Lights are separate LED running lights, in a distinctive 'J' shape, built into the headlights. They emphasise Jaguar's striking on road style.

JAGUARDRIVE SELECTOR
The JaguarDrive Selector rises from the centre console on start up. It is a rotary shifter used with automatic transmissions that allows you to quickly shift between drive modes.

M

MHL CONNECTION
A Mobile High-Definition Link (MHL) enables connection between a personal device and the InControl infotainment system. It is designed for seamless transfer of audio-visual data.

S

SUPERCHARGED PETROL
A petrol engine with a supercharger. A supercharger is a forced induction device mechanically driven by the engine. It offers higher power outputs and immediate, linear response at all engine speeds.

T

10.2 INCH MULTI-TOUCHSCREEN WITH MULTI-TOUCH GESTURES
The Multi-touch functionality of InControl Touch Pro's 10.2 inch Display allows the screen to recognise multiple points of contact. This provides direct control of the system's features in a more natural, intuitive way, enabling gestures such as pinch and zoom.

TURBOCHARGED DIESEL*
Diesel engine with a turbocharger. A turbocharger is a forced induction device powered by exhaust gases. Turbocharging produces higher power outputs, lower emissions levels, and improved efficiency and refinement compared to similar capacity naturally aspirated engines.

X

XENON HEADLIGHTS
Bi-function Xenon headlights offer improved illumination and feature LED 'J' blade Daytime Running Lights for a striking on road style.

*Market dependent.

IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Vehicles shown in this brochure are from the Jaguar Global range. Specifications, options and availability will vary between markets and should be verified with your local Jaguar Retailer. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

Print and online colours are representative only.

ENVIRONMENTAL INNOVATION AT JAGUAR

F-PACE, XF, XE, XJ and F-TYPE's innovative use of lightweight aluminium, which incorporates up to 50% closed-loop recycled material from the manufacturing process of the body structures, provides considerable performance benefits. This includes improved fuel consumption and less CO_2 emissions during the use phase of the Life Cycle due to lighter structures. Our on-going target is to ensure scrap aluminium reclaimed from our stamping process is to be segregated and recycled through a closed loop system and incorporated back into the same grade quality aluminium sheet, therefore reducing CO_2 emissions, versus the use of virgin aluminium sheets, during the production phase of the Life Cycle.

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development, called Environmental Innovation.

The company plan includes ongoing reduction in CO_2 emissions & the use of natural resources and at the end of 2014 we have achieved a 28% reduction in operating CO_2 emissions, 25% in the Company's European fleet average tailpipe emissions, 75% in waste to landfill, logistics efficiencies (18%) and water consumption (10%), all based on per vehicle built since 2007. In addition the manufacturing assembly CO_2 emissions of each Jaguar built in the UK since 2009, is 100% offset as part of our 2020 strategy for carbon neutral manufacturing assembly and since 2013 carbon-for-development projects form a key part of the company's Global Corporate Social Responsibility (CSR) programme.

For each tonne of CO_2 emitted in the assembly process, the company invests in emissions reductions projects that reduce an equivalent tonne of CO_2 elsewhere and provide social and humanitarian benefits at the same time. Since 2013 the programme has offset 800,000 tonnes of CO_2 and improved the lives of over 2 million people from our award winning Lifestraw carbon-for-water emissions reduction programme.

Taking into account the company's global sales growth and increased investment in more efficient operating facilities, we are proud to have delivered and in some cases exceeded our Environmental Innovation targets as planned between 2012-2015 But it doesn't stop there. Our manufacturing facilities have been certified to ISO14001 since 1998 and in 2013 the Company was recognised as the UK's Responsible Business of the Year by leading CR index, Business in the Community. In 2014 we built on this success through the Queens award for Enterprise in Sustainable Development for 2014.

Looking forward, we have developed our 2020 vision for sustainable business growth that focuses on continued improvements in operating & tailpipe CO_2 emissions, carbon neutral manufacturing and zero waste. The company will also improve the lives of 12 million people by 2020 as part of the global Corporate Social Responsibility programme.
