THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars' performance.
We innovate, we engineer, we design. We master rules and then break them.
Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

VEHICLE SHOWN: F-PACE FIRST EDITION IN CAESIUM BLUE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

VEHICLES SHOWN ARE FROM THE JAGUAR GLOBAL RANGE. SPECIFICATIONS, OPTIONS AND AVAILABILITY WILL VARY BETWEEN MARKETS AND SHOULD BE VERIFIED WITH YOUR LOCAL JAGUAR RETAILER

INTRODUCTION

THE CONCEPT OF F-PACE

F-PACE is inspired by the acclaimed C-X17 concept vehicle. It takes the pure Jaguar DNA of legendary performance, handling and luxury. Then it adds space and practicality.

Technologically advanced to the core, F-PACE is the most practical Jaguar sports car. It combines maximum driving exhilaration with efficiency. All enhanced by technologies that keep you safe, connected and entertained. F-PACE has the capability for every road and the capacity for every day. It is the latest in a bloodline of beautiful, exciting cars. F-PACE is a Jaguar for you, a Jaguar for your family.

VEHICLE SHOWN: F-PACE FIRST EDITION IN CAESIUM BLUE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

F-PACE - THE FACTS

Performance, handling and refinement. Practicality, capability and efficiency.

EFFICIENCY

Every F-PACE is designed and engineered for maximum efficiency. Low friction technologies, a lightweight body structure and streamlined aerodynamics all contribute to help achieve fuel economy from 5.3 l/100km*, CO_2 emissions as low as 139g/km* and a drag coefficient from 0.34*.

PRACTICALITY

F-PACE's rear knee and leg room is amongst the best in class and it has a 40:20:40 seating configuration for greater flexibility. Boot space is class-leading at 650 litres, with carefully considered dimensions designed to maximise its usability.

CAPABILITY

F-PACE matches your practical driving needs and the demands of your lifestyle by offering All Wheel Drive for performance across an even wider range of conditions. Capabilities can be further enhanced by All Surface Progress Control, a low speed cruise control that helps F-PACE to cope with low traction situations.

*Engine and transmission dependent.
**Market dependent.

VEHICLE SHOWN: F-PACE PORTFOLIO IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

PERFORMANCE

Discover exhilarating driving experiences across the entire F-PACE range. Our highly efficient performance engines offer a balance between economy and power. Engines include the 2.0 litre 4 cylinder 180PS Turbocharged Diesel** from the Ingenium range, which can achieve 139g/km CO_2 and 5.3 l/100 km. There is also the 3.0 litre V6 380PS Supercharged Petrol that can reach a limited top speed of 250km/h with 0-100km/h acceleration in 5.5 seconds.

REFINEMENT

Our cars have an unrivalled reputation for comfort and a smooth, quiet ride. Thanks to its stiff body structure, advanced suspension and aerodynamic design, F-PACE showcases Jaguar's supreme refinement.

HANDLING

F-PACE's advanced chassis and suspension system is an evolution of the configuration used on our F-TYPE sports car. This robust system is lightweight to ensure F-PACE delivers true sports handling. Jaguar's Electronic Power Assisted Steering (EPAS) software is specially tuned for optimum feedback and control, while the All Wheel Drive system uses the F-TYPE-derived, unique Intelligent Driveline Dynamics software for an agile feel and to minimise understeer. F-PACE always drives, feels and handles like a Jaguar.

DESIGN
EXTERIOR PRINCIPLES

F-TYPE INSPIRED STYLING | **PURITY OF FORM**

Visually inspired by F-TYPE, the Jaguar F-PACE is a performance SUV that has the DNA of a sports car. Its powerful, agile looks make it utterly distinctive and give it a head-turning road presence. From the bonnet bulge to the pronounced rear haunches, F-PACE reinvents the energy, strength and purity of form of F-TYPE.

VEHICLE SHOWN: F-PACE R-SPORT IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

759 VCB

EXTERIOR DETAIL

ADAPTIVE LED HEADLIGHTS*

Even at night, F-PACE is instantly recognisable thanks to its Adaptive LED headlights* featuring Jaguar's signature 'J' Blade Daytime Running Lights. Adding to F-PACE's commanding on-road presence, Adaptive LED headlights* produce an intensity of light that is close to daylight, helping your eyes to distinguish objects more easily and reducing fatigue. At the rear, full LED tail lights echo F-TYPE's distinctive design.

*Fitment dependent on derivative and market. Xenon headlights are also available depending on model chosen.

VEHICLE SHOWN: F-PACE FIRST EDITION IN CAESIUM BLUE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

JAGUAR

INTERIOR CHOICE

SPORTS COMMAND DRIVING POSITION | **EXTENSIVE PERSONAL CHOICE**

F-PACE's interior blends sportiness and elegance to create the latest in contemporary design. Our extensive range of premium materials, handpicked leathers and sophisticated finishes, gives F-PACE one of the most comprehensive interior choices in its class*. This is your perfect opportunity to create a space that reflects your individual style.

Take personalisation to the next level with optional Configurable interior mood lighting**. The system highlights the finest interior design details with soft pools of light in a choice of ten different colours. F-PACE can create an ambience to match your mood. F-PACE's modern interior design means essential controls are intuitive to use and always close at hand. A high centre console and the Sports Command driving position help the driver feel connected and secure. Slender roof pillars and a large windscreen mean all-round visibility is excellent.

*Compared to segment competitors.
**Fitment is market and derivative dependent.

VEHICLE SHOWN: F-PACE PORTFOLIO WITH SIENA TAN PERFORATED WINDSOR LEATHER SEATS. OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

INTERIOR SPACE

PANORAMIC ROOF | OPTIMISED REAR SPACE

VEHICLE SHOWN PREVIOUS PAGE: F-PACE R-SPORT FEATURING JET/RED PERFORATED TAURUS LEATHER SPORTS SEATS WITH RED CONTRAST STITCH. OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

VEHICLE SHOWN THIS PAGE: F-PACE PORTFOLIO FEATURING SIENA TAN PERFORATED WINDSOR LEATHER SEATS WITH SIENA TAN TONAL STITCH. OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

Choose one of our optional panoramic glass roofs* to flood your F-PACE's interior with light and enhance the airy, spacious feeling. The Fixed Panoramic roof* brings the outside in by giving everyone superb views of the sky, while the Sliding Panoramic roof* allows fresh air into the cabin whenever you want it. For greater privacy and to reduce excessive heating under intense sunlight, every panoramic roof* is fitted with an electric blind as standard.

In the back, there's space for three adults to sit comfortably side by side. Rear leg and knee room are 945mm and 65mm respectively. Throughout the car you'll find neatly placed, versatile storage. There are useful pockets for smartphones and other small items either side of the centre console, as well as below the touchscreen.

*Fitment of panoramic glass roof is market and model dependent.

40:20:40
650 Litres*†

PRACTICALITY

CLASS-LEADING BOOT SPACE | VERSATILE SEATING

F-PACE has a boot capacity of a class-leading 650 litres*†, substantially greater than its nearest competitor. The space is made even more versatile by the rear seats' 40:20:40 configuration. They can be folded completely, or folded individually, in a variety of combinations, to accommodate both passengers and awkward items. With the rear seats folded flat, F-PACE's total loadspace is an impressive 1,740* litres.

The parcel shelf, so often a difficult object to store, can be stowed under the loadspace floor*. The loadspace floor is reversible and can be switched, in an instant, from luxury carpet to an easy-clean, rubberised surface-perfect for damp or muddy equipment. Transferring items into and out of F-PACE is made easier by the low loading height and wide boot opening.

Powered Tailgate and Gesture Tailgate are available as options on F-PACE. With Gesture Tailgate you don't even have to touch the car when your hands are full – simply present your foot under one of F-PACE's rear flanks and the tailgate opens or closes.‡

*When Tyre Repair System is fitted.
†Below the parcel shelf.
‡Requires Jaguar Smart Key System with Keyless Entry and Push Button Start.

1,740 Litres*

PERFORMANCE

ENGINES

RESPONSIVE ENGINES | **EFFICIENCY AND PERFORMANCE**

F-PACE offers a choice of refined, efficient diesel* or petrol engines – all delivering a dynamic driving experience and responsive Jaguar performance. F-PACE's engines are equipped with Stop/Start technology* and smart regenerative charging – harvesting kinetic energy from braking to charge the battery – for maximum economy, especially during urban driving. For information on fuel consumption, CO_2 emissions and performance figures for F-PACE engines, please refer to pages 66-67.

INGENIUM DIESEL* FROM

139g/km CO_2

F-PACE is offered with the 2.0 litre 4 cylinder 180PS Turbocharged Diesel* from our Ingenium range. Ingenium is Jaguar Land Rover's new breed of engine designed for effortless performance, refinement and efficiency. With advanced technology and all-aluminium construction Ingenium delivers impressive fuel consumption and CO_2 emissions. Typically, 20kg lighter than equivalent previous generation engines, Ingenium is intrinsically more efficient.

And intelligent too – computer controlled, adaptive engine cooling only engages as required. The latest generation variable geometry turbocharger maximises peak power for low speed torque and responsiveness that is uniform, progressive and avoids lag. Internal friction – the enemy of performance and efficiency – is 17 percent lower in the Ingenium range than previous generation engines. Ingenium diesel engines are available with All Wheel Drive Automatic transmission.

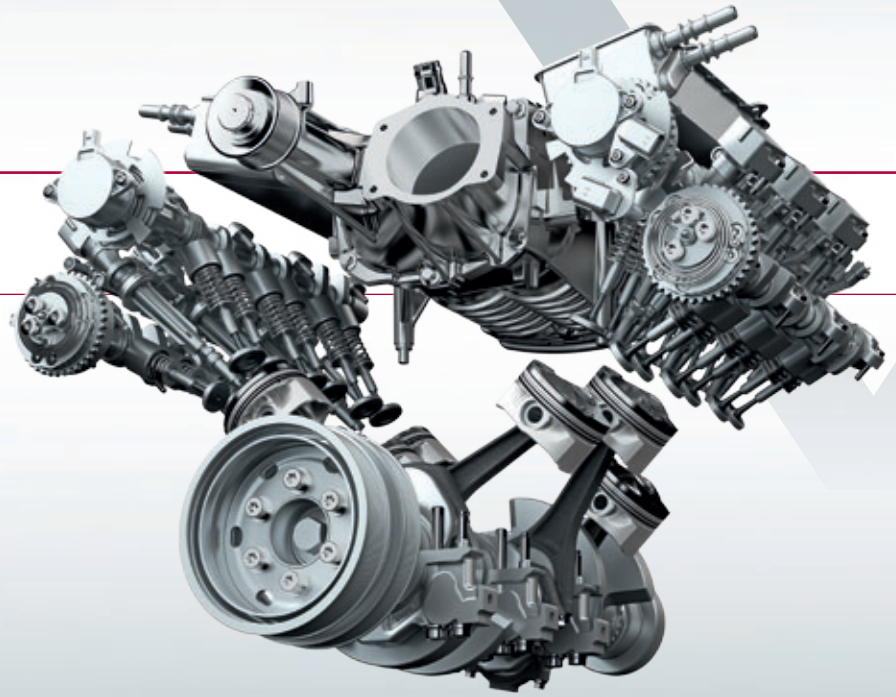
*Market dependent.

The figures provided are as a result of official manufacturer's tests in accordance with EU legislation.
A vehicle's actual fuel consumption may differ from that achieved in such tests and these figures are for comparative purposes only.
Technical Data Figures shown are market dependent. Please contact your local dealer for regional specific data.

DIESEL* ENGINE

0-100km/h in 6.2 seconds

The powerful 3.0 litre V6 Turbocharged Diesel* engine offers exceptional refinement and efficiency, increasing power to 300PS and torque to an impressive 700Nm for improved performance and excellent drivability. Its high pressure common rail fuel system delivers efficient combustion and fewer emissions. The engine uses innovative twin parallel sequential turbocharging – a concept pioneered by Jaguar Land Rover – for smooth, more immediate delivery of power at all engines speeds, as well as two-stage water cooling to conserve energy. It is capable of 0-100km/h in 6.2 seconds with CO_2 emissions of just 159g/km CO_2 on the European combined cycle.



PETROL ENGINES

0-100km/h in 5.5 seconds

F-PACE's petrol engines offer power and responsiveness throughout the rev range, while improving efficiency. Shared with F-TYPE, the 3.0 litre V6 Supercharged Petrol engine is available in both 340PS and 380PS versions. At 380PS the engine is capable of 0-100km/h in 5.5 seconds. This all-aluminium engine delivers instant access to high levels of torque at all engine speeds, and a unique soundtrack.

The 3.0 litre V6 Supercharged Petrol engine has been adapted for the specific requirements of F-PACE. A Roots-type twin vortex supercharger is mounted in the 'V' between the two rows of cylinders for compact dimensions. Supercharging provides linear delivery of power and maximises responsiveness. This results in performance matching much larger engines, while optimising economy and reducing emissions. The engine also features dual independent variable cam timing to vary inlet and exhaust valve operation, working alongside lightweight pistons with ultra-low friction piston rings, for increased performance and efficiency. For added refinement there is a twin, contra-rotating balancer shaft system.

The figures provided are as a result of official manufacturer's tests in accordance with EU legislation.
A vehicle's actual fuel consumption may differ from that achieved in such tests and these figures are for comparative purposes only.
Technical Data Figures shown are market dependent. Please contact your local dealer for regional specific data.

VEHICLE SHOWN: F-PACE R-SPORT IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

AUTOMATIC TRANSMISSION

EIGHT-SPEED AUTOMATIC TRANSMISSION

F-PACE's automatic transmission is highly responsive, smooth and efficient. Developed specifically for the demands of a performance SUV, it delivers rapid shifting for effortless acceleration and overtaking. This intelligent, adaptive system subtly changes the way the throttle delivers power, as well as gearshift patterns, to suit your particular driving circumstances. The unique JaguarDrive Control system offers even quicker shifts and sportier kickdown in Dynamic Mode, and earlier up-shifts in Eco Mode to improve efficiency while the Rain Ice Snow Mode enhances the vehicle stability in low grip conditions by allowing for more gentle progress. The driver can also opt to manually control gearshifts via the steering wheel paddles at the touch of a finger.

P R N D S

ADVANCED AERODYNAMICS

LOW DRAG | **INCREASED STABILITY**

F-PACE's aerodynamic performance is a key function of its body design and supports an impressive drag coefficient from Cd 0.34*. The result is that F-PACE really is as sleek as it looks. Highly advanced aerodynamics reduce fuel consumption, CO_2 emissions and wind noise while adding to high speed stability and driver confidence. F-PACE's innovative, lightweight underbody design is as important as the body you can see. The smooth underbody surfaces manage airflow to optimise cooling of the engine and brakes as well as helping to minimise drag, reduce turbulence and increase efficiency. As air reaches the back of F-PACE, the car's sharply angled rear corners and integrated spoiler limit pressure differences forming in the wake of the car for improved fuel economy.

*Engine and model dependent.

VEHICLE SHOWN: F-PACE PORTFOLIO IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

JAGUAR

LIGHTWEIGHT ALUMINIUM ARCHITECTURE

STRONG | RIGID | 80% ALUMINIUM*

Jaguar has been at the forefront of aluminium car construction for more than a decade. Our latest innovation is the Lightweight Aluminium Architecture that provides the foundations for F-PACE. We use aluminium where possible because it creates a stiff, strong and, most importantly, lighter architecture. The architecture's incredible strength offers excellent protection to all occupants, while its reduced weight enhances handling and braking. Aluminium has also been used to form the body sides, bonnet and front wings of F-PACE.

The use of aluminium enables F-PACE to be amongst the lightest cars in its class** – boosting efficiency from the outset. The reduced weight of F-PACE's structure is distributed with a near perfect 50:50** balance for a sporting performance and an impeccable ride.

*Aluminium content based on volume for body structure excluding doors, bonnet and tailgate.
**Model and engine dependent.

ALUMINIUM FRONT KNUCKLE

Designed to optimise stiffness and strength, the lightweight aluminium front knuckle helps improve F-PACE's agility, responsiveness and refinement for sports car inspired control.

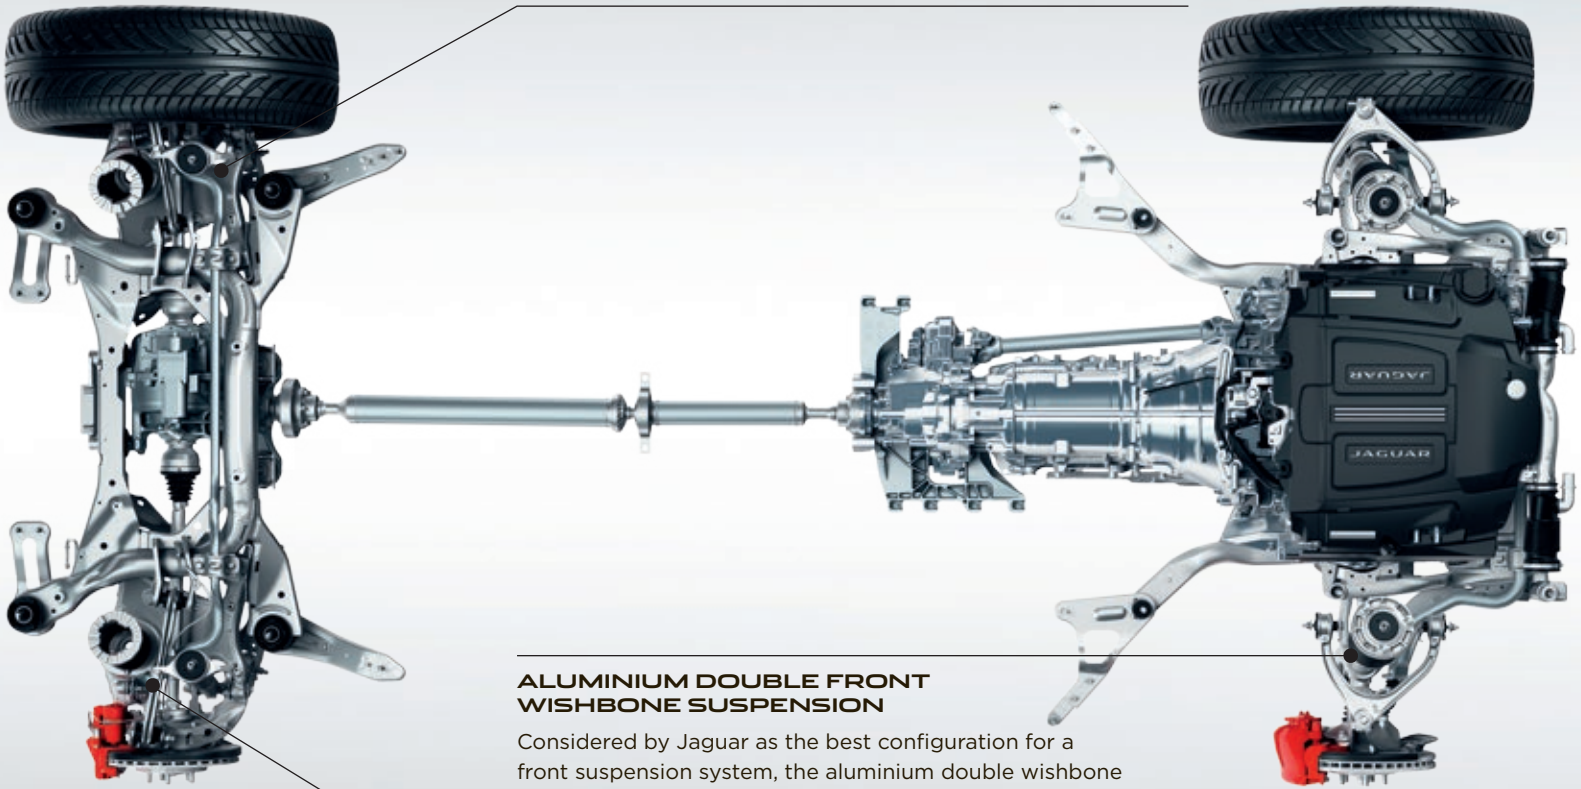
CHASSIS AND SUSPENSION

SUPERB RIDE AND HANDLING | **UNIQUE SUSPENSION TECHNOLOGY**

Underpinning F-PACE is an evolution of F-TYPE's chassis and suspension system – it offers a unique balance between agility and ride comfort. This ensures that F-PACE feels like a true Jaguar and is a pleasure to drive or be driven in. In combination with this suspension, F-PACE's stiff body structure and the use of lightweight acoustic damping materials create supreme refinement.

INTEGRAL LINK REAR SUSPENSION

Integral Link suspension allows F-PACE to realise a perfect combination of a refined, luxurious ride and sharp, responsive handling. The system, unique for this class of car, separates and independently manages the lateral, longitudinal and vertical forces acting on the suspension for enhanced control and comfort. Many components are forged or hollow-cast in aluminium – the optimum production techniques for strong, lightweight suspension.



ALUMINIUM DOUBLE FRONT WISHBONE SUSPENSION

Considered by Jaguar as the best configuration for a front suspension system, the aluminium double wishbone design is modelled closely on F-TYPE's for precise handling and control.

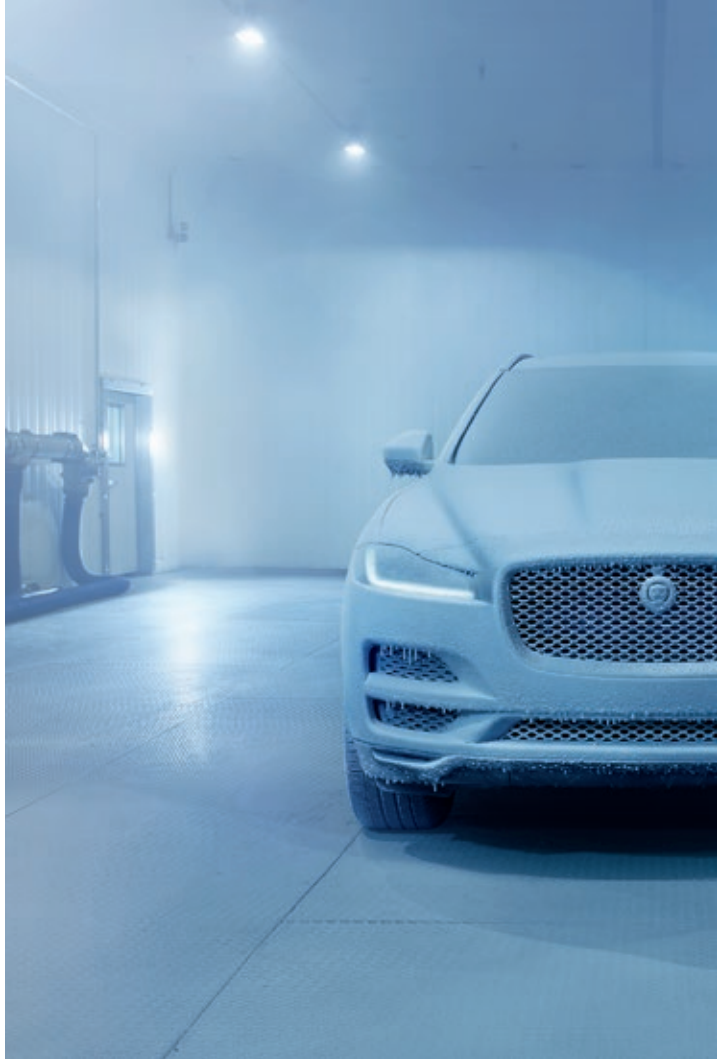
ADAPTIVE DYNAMICS*

The optional Adaptive Dynamics system delivers both precise dynamics and a supple, luxurious ride by monitoring wheel position and body movements. The system constantly monitors conditions and adjusts the dampers to provide the optimum balance between comfort and refinement at all times.

*Standard on F-PACE S and F-PACE First Edition, optional on other models.

SUSPENSION

We create unique algorithms to represent the strains and stress equivalent to 250,000 km or ten years of driving on our state-of-the-art rig.



COLD CLIMATE

-40°C in our cold climate chamber ensures that when F-PACE is hard at work outside in freezing conditions, everything on the inside is working for your total comfort.

HOT TESTING

In the hot room temperatures can soar up to 55°C. We can recreate wind speeds of up to 240km/h and roads speeds as high as 250km/h. There's nowhere you can take F-PACE that it hasn't been already.

TESTED TO THE EXTREME

-40°C TO 55°C | **FROM THE ARCTIC TO DUBAI**

From the Arctic Circle and the mountains of China to the sands of Dubai and coast to coast in North America, F-PACE has seen almost everything the world's roads can throw at it. Then we brought F-PACE home to our UK testing facilities and things got really tough...

MONSOON TESTING

The Monsoon chamber drenches F-PACE at every stage of the development process. We test for water management and dispersal along its body and over its windows. And we make sure that F-PACE stays dry inside as well as corrosion-free.

SEMI-ANECHOIC CHAMBER

Our 'neutral sound' room is where we make sure F-PACE sounds like a true Jaguar with its distinctive exhaust note.

FINAL INSPECTION

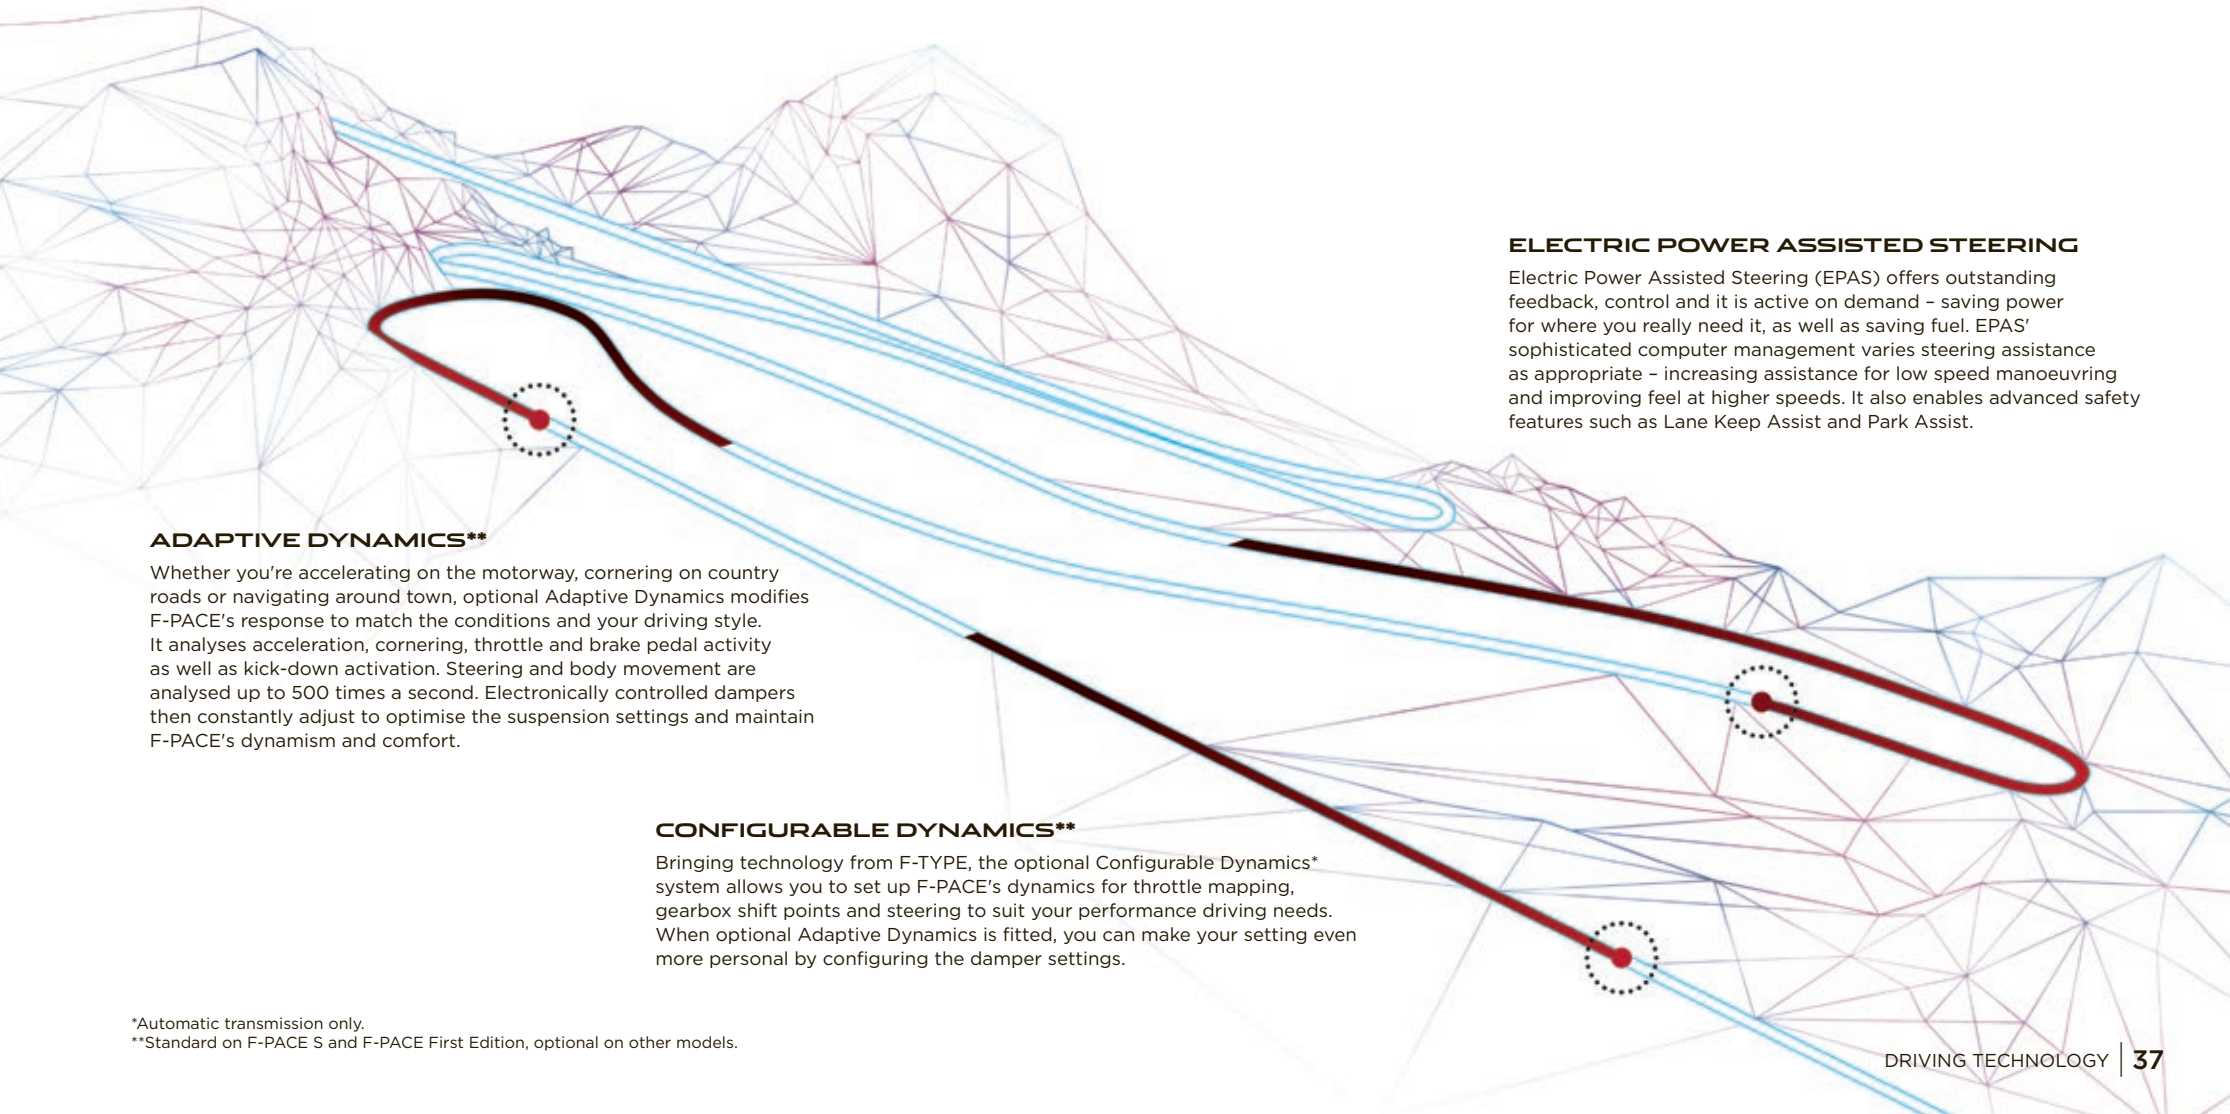
At the end of the production line every car is scrutinised by one of the most complex instruments in the world – the human eye. F-PACE undergoes an exhaustive visual inspection by expert quality inspectors.

VEHICLE SHOWN: F-PACE PORTFOLIO IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

ADVANCED DRIVING DYNAMICS

MAXIMISING AGILITY | **CONTINUOUSLY ADAPTING**

Dynamic Mode revises the car's software to further enhance F-PACE's sporting character. It sharpens the throttle response, increases steering weighting and performs gearshifts more quickly* and at higher engine speeds. It also brings visual drama to the driver as the instrument cluster takes on a red glow. Dynamic Mode enhances your connection with F-PACE's inherent Jaguar performance.



ELECTRIC POWER ASSISTED STEERING

Electric Power Assisted Steering (EPAS) offers outstanding feedback, control and it is active on demand – saving power for where you really need it, as well as saving fuel. EPAS' sophisticated computer management varies steering assistance as appropriate – increasing assistance for low speed manoeuvring and improving feel at higher speeds. It also enables advanced safety features such as Lane Keep Assist and Park Assist.

ADAPTIVE DYNAMICS**

Whether you're accelerating on the motorway, cornering on country roads or navigating around town, optional Adaptive Dynamics modifies F-PACE's response to match the conditions and your driving style. It analyses acceleration, cornering, throttle and brake pedal activity as well as kick-down activation. Steering and body movement are analysed up to 500 times a second. Electronically controlled dampers then constantly adjust to optimise the suspension settings and maintain F-PACE's dynamism and comfort.

CONFIGURABLE DYNAMICS**

Bringing technology from F-TYPE, the optional Configurable Dynamics* system allows you to set up F-PACE's dynamics for throttle mapping, gearbox shift points and steering to suit your performance driving needs. When optional Adaptive Dynamics is fitted, you can make your setting even more personal by configuring the damper settings.

*Automatic transmission only.
**Standard on F-PACE S and F-PACE First Edition, optional on other models.

DRIVING TECHNOLOGY

ALL SURFACE PROGRESS CONTROL

ADDED DRIVER CONFIDENCE | **LOW SPEED CRUISE CONTROL**

Unique in this class of car, Jaguar's All Surface Progress Control (ASPC) technology is a low speed cruise control that helps F-PACE to cope with low traction situations. ASPC allows the driver to concentrate on steering the vehicle. Once activated, you use the cruise control buttons to set a 'target' speed of between 3.6km/h and 30km/h. The system then works to achieve and maintain that speed while exerting optimum traction control.

ASPC is standard on all engines fitted with automatic transmissions and gives F-PACE drivers added confidence over slippery, loose or icy surfaces, undulating terrain and even while descending a difficult incline. It helps make F-PACE easy to drive in challenging conditions. ASPC also has a pull-away function allowing F-PACE to progress from rest on low grip surfaces and ascending gradients, as well as a hill descent function that controls vehicle speed on steeper inclines.

GRAVEL

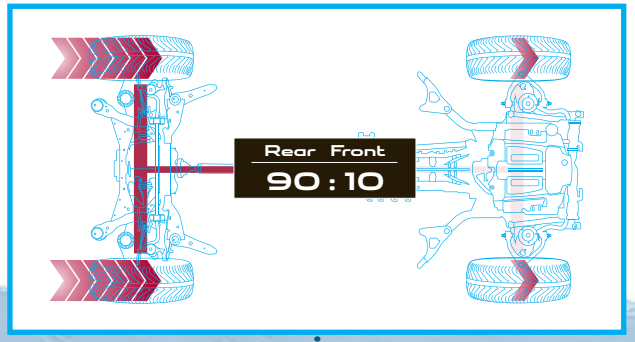
WET GRASS

SNOW/ICE

WET ROAD

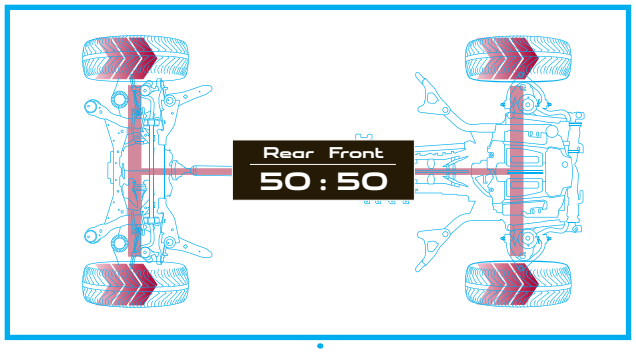
DRY ROAD CONDITIONS

In normal driving conditions, virtually all torque is distributed to the rear wheels providing signature Jaguar rear wheel drive performance.



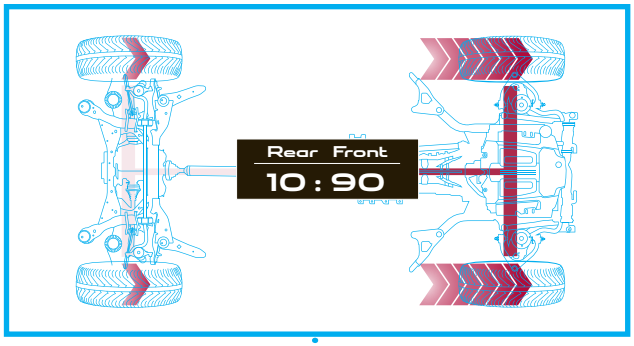
LOW TRACTION CONDITIONS

On slippery surfaces, such as grass and mud, torque can be balanced 50:50 between the front and rear wheels to maximise traction.



VARIABLE ROAD CONDITIONS

Where road conditions are changeable, over 90 percent of torque can be intelligently distributed from the rear wheels to the front to optimise traction in all conditions.



ADVANCED DRIVETRAIN TECHNOLOGY

ALL WHEEL DRIVE | **ADAPTIVE SURFACE RESPONSE**

F-PACE's All Wheel Drive (AWD) system delivers confident handling on all surfaces. The drivetrain technology offers a reduction in weight and an increase in efficiency compared to previous generation systems. At its heart is an extremely fast-reacting, compact transfer case with integrated Intelligent Driveline Dynamics (IDD) software. Exclusively developed by Jaguar, the unique IDD software features sophisticated algorithms to react intelligently to road conditions for traction on demand. Whenever greater traction is needed, IDD ensures that precisely the right amount of torque is transferred to the front wheels – a process that takes no more than 165 milliseconds. Offering a smoother, safer drive, the system also consumes less fuel and has lower emissions than permanent AWD. Predictive, as well as reactive, the system helps prevent you from losing traction instead of working to regain it.

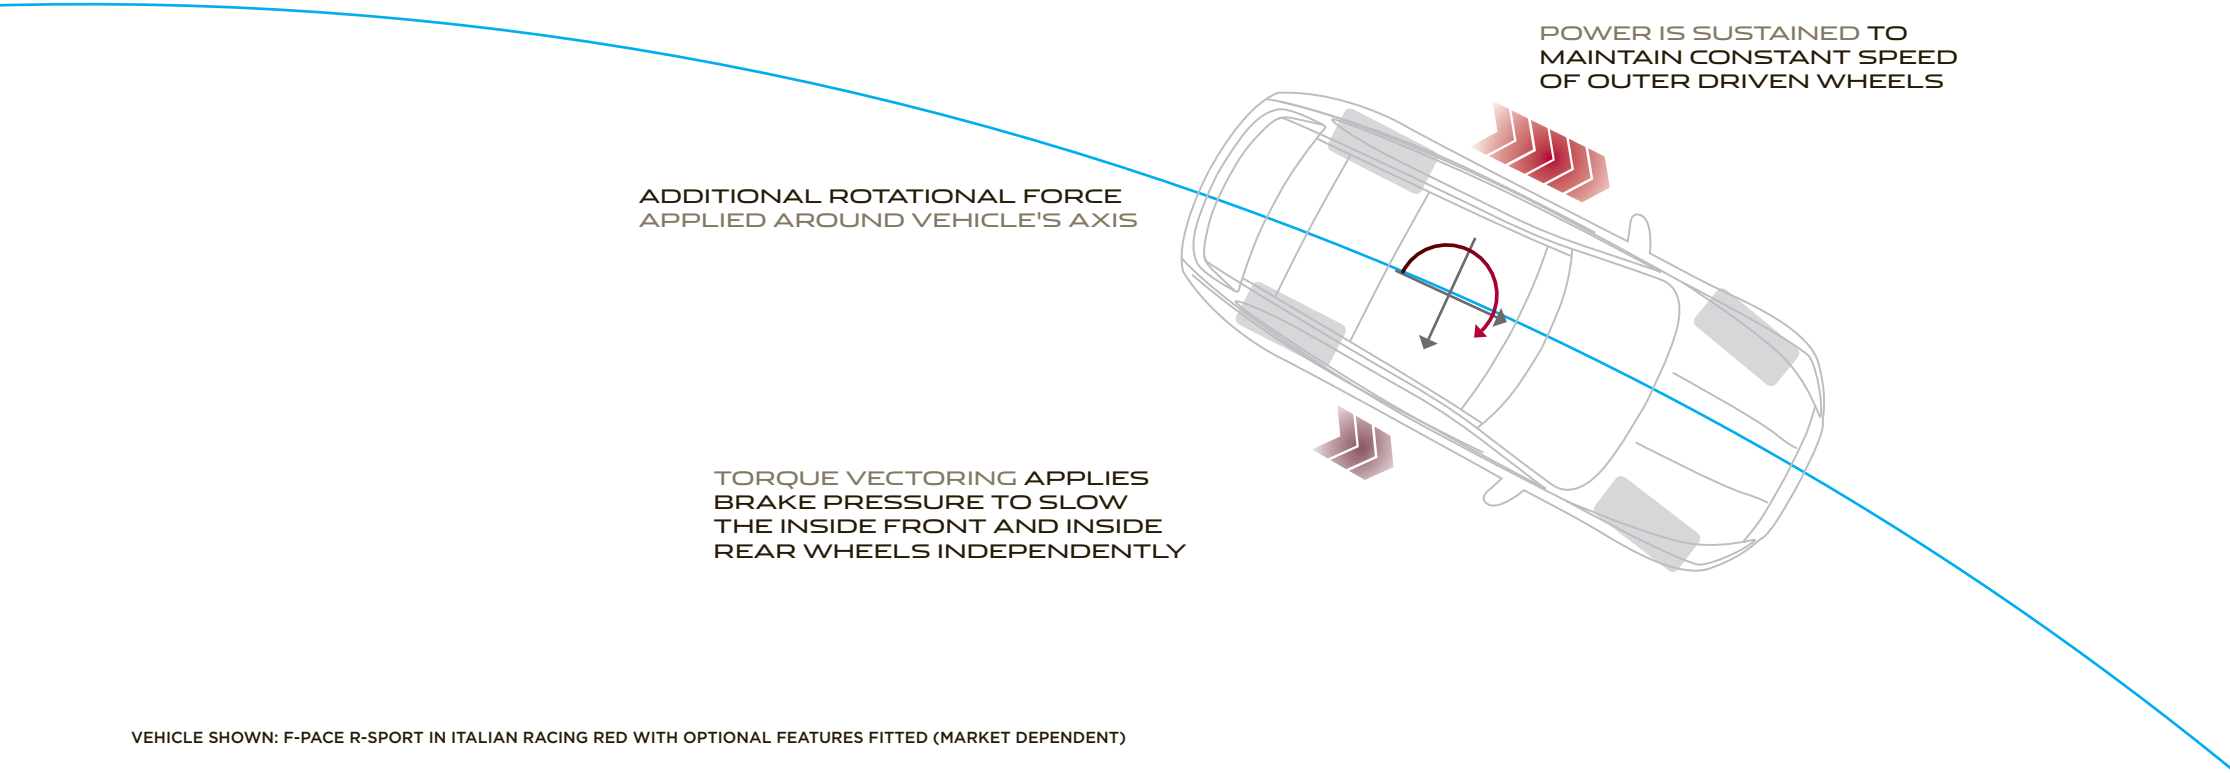
On All Wheel Drive vehicles fitted with Adaptive Dynamics*, optional Adaptive Surface Response (ASR) recognises differences between surfaces to exploit the maximum available grip. Drawing on Jaguar Land Rover's unrivalled expertise with All Wheel Drive systems, ASR constantly monitors the car's environment and adjusts the appropriate engine and brake settings. Once selected, ASR works at all speeds to support you in adverse weather and across challenging surfaces.

*Adaptive Dynamics is standard on F-PACE S and F-PACE First Edition.

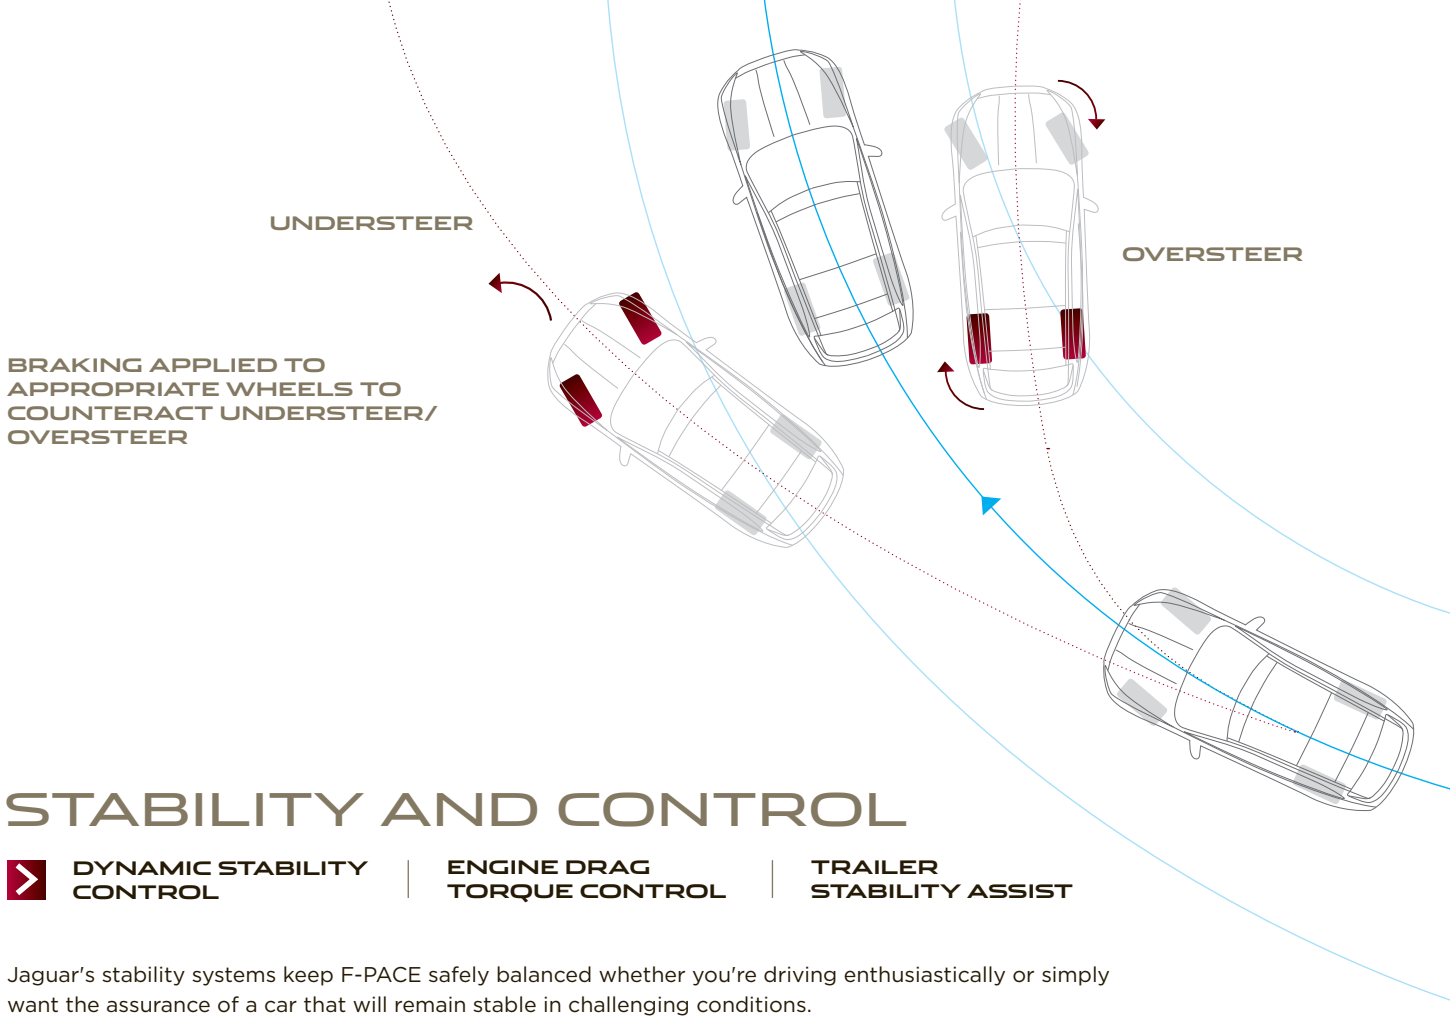
TORQUE VECTORING

MAXIMISED CORNERING CAPABILITY

F-PACE's Torque Vectoring by braking maximises capability through even the tightest corners. Torque Vectoring technology provides controlled independent braking on the individual inside front and rear wheels to add to the turning forces acting on the car. In most conditions more braking pressure is applied to the rear inside wheel as this supports the most increased cornering capability, while the front inside wheel is braked for greater effectiveness and refinement. The result is reduced understeer for sharper turning and more consistent road holding. Torque Vectoring delivers increased sports car-like agility and added driver confidence.



VEHICLE SHOWN: F-PACE R-SPORT IN ITALIAN RACING RED WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)



STABILITY AND CONTROL

DYNAMIC STABILITY CONTROL | **ENGINE DRAG TORQUE CONTROL** | **TRAILER STABILITY ASSIST**

Jaguar's stability systems keep F-PACE safely balanced whether you're driving enthusiastically or simply want the assurance of a car that will remain stable in challenging conditions.

Dynamic Stability Control (DSC) monitors F-PACE's dynamic behaviour, intervening to maximise vehicle stability and optimising available grip. DSC reduces engine torque and applies braking to the appropriate wheels to correct the car's direction of travel by counteracting understeer or oversteer. F-PACE's DSC system has enhanced understeer control to reduce speed and regain control more effectively.

Engine Drag torque Control (EDC) mitigates the chance of wheel lock-up caused by strong engine braking in slippery conditions. It acts by briefly increasing torque to the wheels as appropriate.

Trailer Stability Assist (TSA) gives you greater stability when towing. Should TSA detect a dangerous trailer sway situation is developing, it can help you regain control by gradually reducing F-PACE's speed through lowering engine power and applying the brakes individually on each side of the vehicle to control the sway.

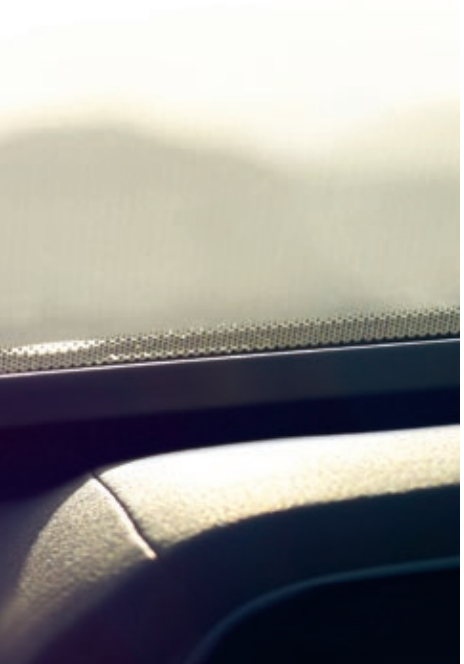
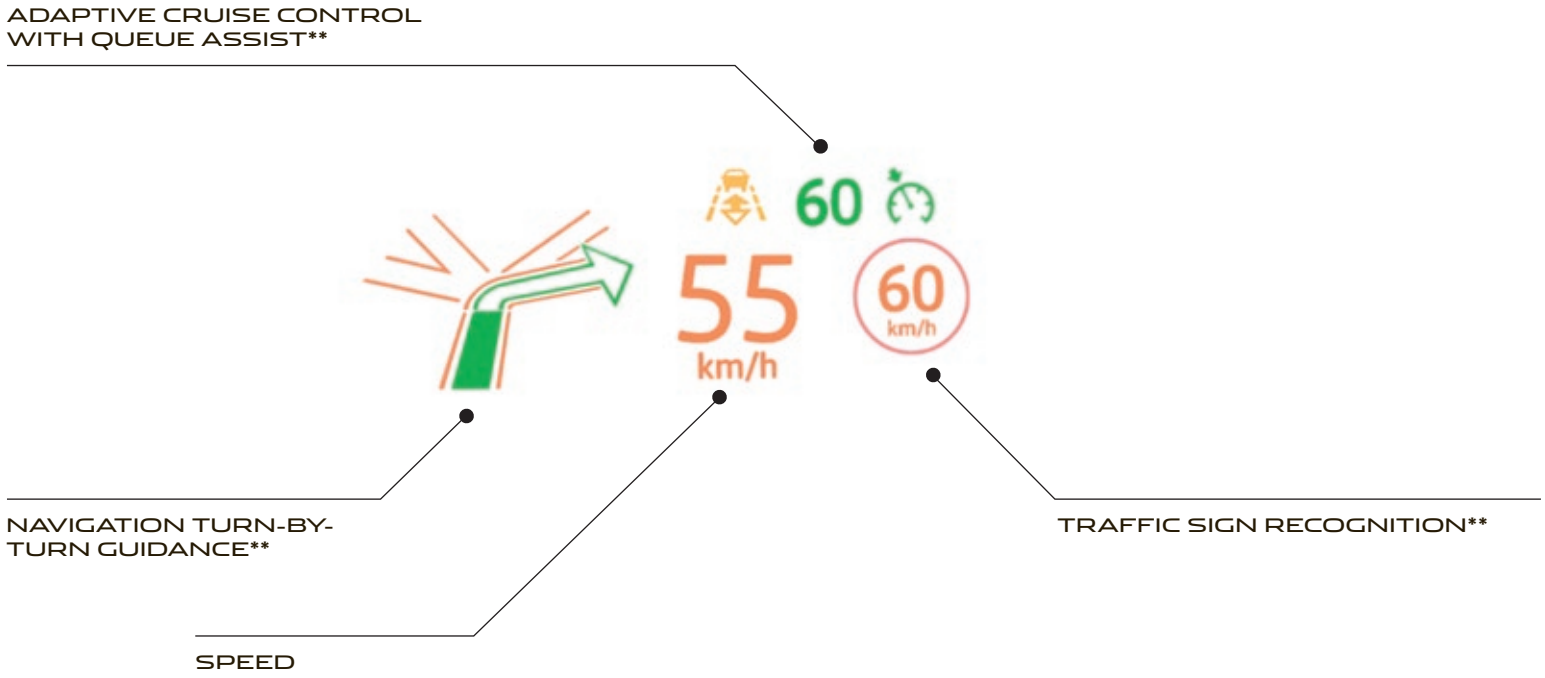
HEAD-UP DISPLAY

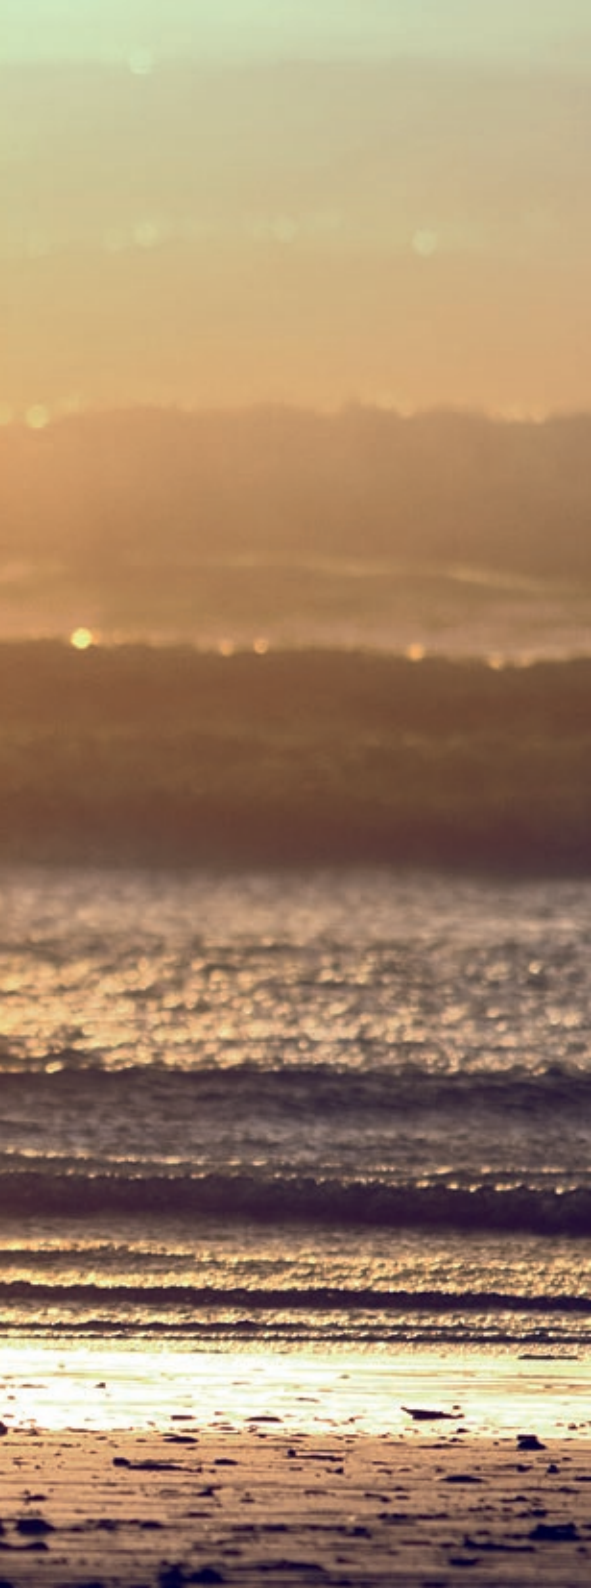
HEAD-UP DISPLAY WITH LASER TECHNOLOGY

The optional Head-Up Display (HUD)* with laser technology projects key information onto the windscreen. Remaining clear even in direct sunlight, the crisp, bright image can display vehicle speed, navigation, cruise control notifications and Forward Alert data. This technology helps you minimise time spent looking down at the instrument cluster and can help you maintain continuous awareness of the car's speed.





*Requires Infrared Reflective windscreen to be fitted.
**Optional features with fitment market dependent.



ACTIVITY KEY

ROBUST | WATERPROOF | SECURE

Activity Key* makes living life to the full even easier. For extra convenience, you can wear the Activity Key if you prefer not to carry a key fob. The wristband is robust and fully waterproof. It allows you to enjoy a range of activities – from skydiving to swimming – and keep your car key with you. You can use the Activity Key to lock and unlock your car. When exiting the car, you can leave the conventional key fob in the car and present the Activity Key to the tailgate to lock it. The conventional key fob is then automatically deactivated for security.

*Optional feature. Also available as Jaguar retailer fit Accessory.

VEHICLE SHOWN: F-PACE PORTFOLIO IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

INFOTAINMENT

INCONTROL TECHNOLOGIES

INCONTROL TOUCH | INCONTROL TOUCH PRO

Choose from two InControl infotainment systems: InControl Touch, available as standard, or upgrade to InControl Touch Pro*.

*As we systematically introduce InControl, specific features, options and its availability remain market dependent. Third Party programmes or applications may require an end user license from the supplier.

INCONTROL TOUCH

STANDARD ON EVERY F-PACE

8 inch Touchscreen

5 inch Instrument Panel Display with analogue dials

Jaguar Sound System (80W)

FM Radio, iPod, 1 x USB, Bluetooth® and 1 x AUX connection

For information on InControl Touch see pages 52-53.

INCONTROL TOUCH PRO

AVAILABLE AS AN UPGRADE

10.2 inch Touchscreen with multi-touch gestures and customisable homescreen

12.3 inch Instrument Panel Display with virtual dials and full screen 3D Map View

InControl Touch Pro Solid State Drive (SSD) Enhanced Navigation

Meridian Digital Sound System (380W)

FM Radio, iPod, Bluetooth® and 2 x USB connections

10GB of usable memory

CD/DVD Drive

For information on InControl Touch Pro see pages 54-55.

8 INCH TOUCHSCREEN SHOWN AT ACTUAL SIZE

Audio	Standard: Jaguar Sound System (80W) Optional: Meridian Sound System (380W)
Navigation Guidance	InControl Touch SD Navigation*
Display	5 inch Instrument Panel Display with analogue dials
Multimedia	FM Radio*, iPod, 1 x USB, Bluetooth® and 1 x AUX connection

INCONTROL TOUCH

ADVANCED INFOTAINMENT AS STANDARD

The InControl Touch multimedia system is F-PACE's hub for connectivity, control and entertainment. The key features are:

8 inch Touchscreen at the heart of the centre console. Clear and responsive graphical interface for quick control.

Easy to use Touchscreen responds directly to touch and swipe gestures.

Navigation guidance* makes planning journeys and following routes easy, thanks to turn-by-turn voice guidance and junction view. 'Dead-reckoning' functionality can accurately position the vehicle even when GPS signals can no longer be received – perfect for city centres or driving through tunnels.

Bluetooth phone connectivity allows you to link and control your smartphone via InControl Touch either for phone calls or music playback: simple, easy and wire-free.

Access a world of music thanks to FM, Satellite and HD radio* (subject to regional fitment), as well as iPod, USB and AUX connections.

Integrated text-to-voice* technology reduces distraction by reading out incoming text messages. You can easily respond with short, prepared messages.

Precise climate control is available via the Touchscreen. Adjust temperature levels, direction and intensity of airflow and operate heated or cooled seats (if fitted).

*Optional features.

As we systematically introduce InControl, specific features, options and its availability remain market dependent. Please consult your local Jaguar retailer for further details.

10.2 INCH TOUCHSCREEN SHOWN AT ACTUAL SIZE

Audio	Standard: Meridian Digital Sound System (380W) Optional: Meridian Digital Surround Sound System (825W)
Navigation Guidance	InControl Touch Pro SSD Enhanced Navigation
Display	12.3 inch Instrument Panel Display with virtual dials and full screen 3D Map View
Multimedia	FM Radio, iPod, Bluetooth®, HDMI†, MHL† and 2 x USB connections. Digital TV*, 10GB of usable memory and CD/DVD Drive

12.3 inch Instrument Panel Display with virtual dials

*Optional features.
†Only available with InControl Connect Pro.
Please consult your local Jaguar retailer for further details. Certain features require the fitment of a Micro SIM with a suitable data contract.

INCONTROL TOUCH PRO

UPGRADE TO NEXT GENERATION INFOTAINMENT

InControl Touch Pro's next-generation hardware and software advances F-PACE's connectivity and entertainment to the very highest level. InControl Touch Pro's features replace or enhance those found in InControl Touch. The key aspects of InControl Touch Pro are:

Larger, highly-responsive, 10.2 inch Touchscreen at the heart of the centre console with customisable home screen and lightning fast response times. Its interactive side panel makes multi-tasking easy.

Pinpoint touch control allows you to manipulate and interact with information swiftly and seamlessly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch to zoom and swipe.

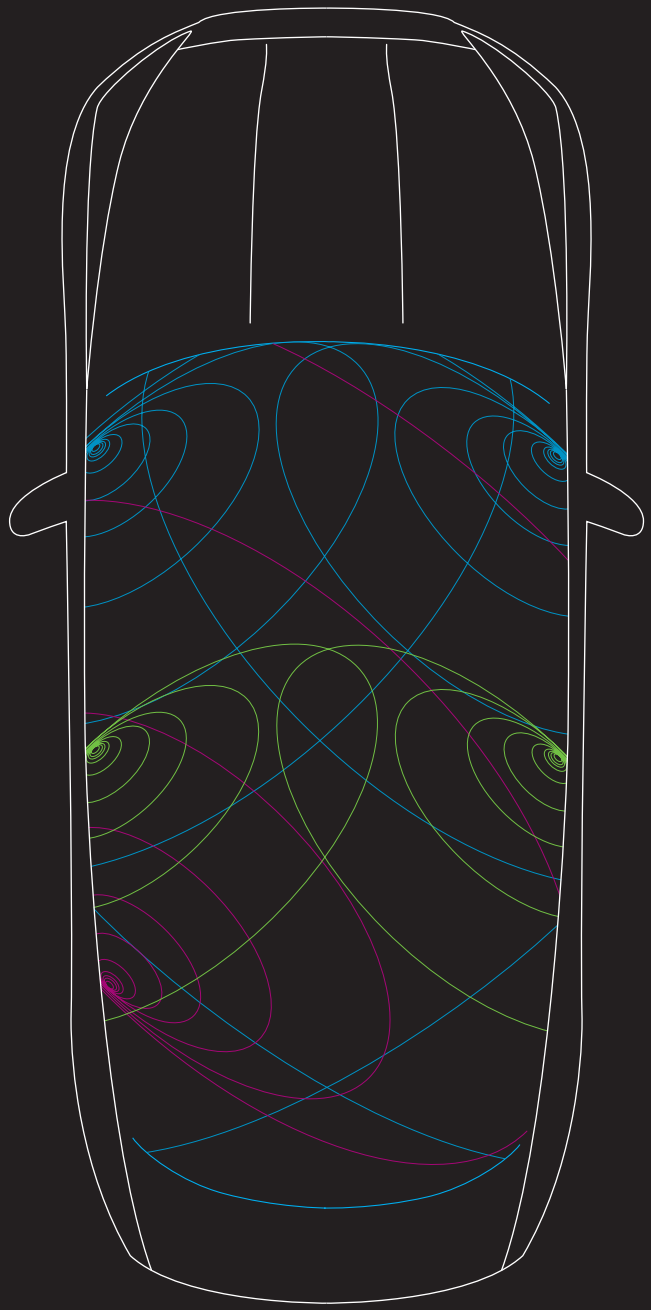
12.3 inch Instrument Panel Display with Virtual Dials and full screen 3D Map View makes driving even more of a pleasure. It is housed in the instrument display directly in front of the driver. Select full screen 3D Map View or choose one of four graphical themes to suit your personal preference.

Enhanced Navigation with faster response times. One of the many innovative features of InControl Touch Pro's Navigation is that it allows you to set a destination and the system alerts you if you have insufficient fuel for the journey. It then displays filling stations on the part of the route where you may be low on fuel. The system automatically displays parking options.

Personal media storage of 10GB of usable memory for your music and movies. 'Plug and play' using the two USB ports allowing for fast transfer speeds.

*Optional features.

As we systematically introduce InControl, specific features, options and its availability remain market dependent.
Please consult your local Jaguar retailer for further details. Certain InControl Connect Pro features require the fitment of a Micro SIM with a suitable data contract.



MERIDIAN

AUDIO

JAGUAR SOUND SYSTEM | MERIDIAN SOUND SYSTEMS

F-PACE's superb sound systems bring your music to life. The Jaguar Sound System provides acoustic range through 6 speakers. Offering an enhanced listening experience are the optional Meridian Sound Systems. Designed in conjunction with the British audio experts Meridian, these systems use innovative audio technology and precise speaker placement to give perfectly optimised sound quality.

Choose from a range of audio systems, including the new digital 380W Sound System with 11 speakers or the digital 825W Surround Sound System with 17 speakers. All systems ensure that, wherever you or your passengers sit in your F-PACE, everyone will enjoy a rich, enveloping audio experience.

- Fresh air subwoofer
- Front door waves tweeter midrange bass
- Rear door waves tweeter midrange

MERIDIAN DIGITAL SURROUND SOUND SYSTEM

Dynamic Volume Control**
825 watts
17 speakers including sub woofer
16 amplifier channels
Advanced DSP with fully digital amplification
Audyssey MultEQ Audio Equalisation
Meridian Trifield Technology

*Automatically adjusts as vehicle speed changes.
**Automatically adjusts as vehicle speed changes and/or ambient noise levels change.

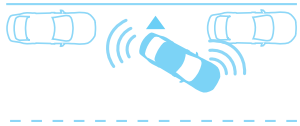
VEHICLE SHOWN: F-PACE PORTFOLIO IN GLACIER WHITE WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

SAFETY AND EFFICIENCY

ADVANCED DRIVER ASSISTANCE

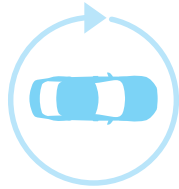
1 BLIND SPOT MONITOR AND REVERSE TRAFFIC DETECTION*

Blind Spot Monitor alerts you to vehicles or obstacles beside F-PACE, as well as ones approaching from a distance behind, via an icon displayed in the appropriate exterior mirror. Reverse Traffic Detection extends the Blind Spot Monitor function and alerts you via the Touchscreen of moving vehicles during reversing – for example, when leaving a parking bay with restricted vision.



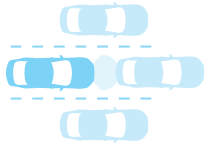
2 PARK ASSIST*

Park Assist makes parking in tight spaces easier than ever. F-PACE can accurately steer itself during both parallel and bay parking manoeuvres – the driver only has to control the brakes and accelerator. An exit-assist function can help guide F-PACE while leaving a parallel space.



3 SURROUND CAMERA SYSTEM*

Surround Camera System gives you 360° exterior vision on the Touchscreen. This helps with various manoeuvres from parking by a kerb to getting in and out of tight spaces and junctions.



4 ADAPTIVE CRUISE CONTROL WITH QUEUE ASSIST*

Adaptive Cruise Control† uses radar technology to automatically adjust your speed to maintain a safe distance from the vehicle ahead. If that vehicle slows, your F-PACE reduces its speed to maintain a safe distance. F-PACE resumes its pre-set speed as soon as the road in front is clear. Should the car in front stop completely, the Queue Assist function brings F-PACE to a smooth halt. Once the traffic moves off, touch the accelerator and F-PACE will follow the car in front again.

*Optional features, availability and fitment is market dependent.
†Only available on automatic transmission.

Please refer to page 71 for fitment requirements.

EFFICIENT TECHNOLOGIES

LOW FRICTION | **CLEAN TECHNOLOGIES**

Everyone wants to do more with less. That is why F-PACE uses a range of technologies to reduce fuel consumption and CO_2 emissions, all while staying true to Jaguar's dynamic nature.

SUSTAINABLE CONSTRUCTION

The aluminium alloy used for much of F-PACE's construction is from a high level of recycled aluminium. Using significantly less energy than primary aluminium to produce, it minimises F-PACE's environmental impact.

*Market dependent.
**Engine and transmission dependent.

STOP/START

All F-PACE's engines are available with Stop/Start*. It shuts down the engine when you come to a complete halt and restarts the engine immediately when required. Helping to save fuel, especially during urban driving. F-PACE's air conditioning system will continue to operate as normal during engine shut down. The engine is automatically restarted if the cabin is not being cooled efficiently.

LIGHTWEIGHT MATERIALS

At every stage of the development process, engineers maximised weight saving across all the car's elements. This produces an optimum balance between best performance and weight saving for greater efficiency.

ADVANCED AERODYNAMICS

F-PACE's aerodynamics are developed and optimised with the aid of computational fluid dynamics analysis. By increasing stability and minimising drag, F-PACE's fuel consumption can reach 4.9 l/100km** with CO_2 emissions as low as 129 g/km**.

LOW FRICTION TECHNOLOGIES

The Ingenium engine range uses smart coating technologies on pistons, needle roller bearings and other mechanical parts. This helps to reduce friction, especially at low engine temperatures, so the car performs at its efficient best.

FIRST EDITION

EXCLUSIVE F-PACE FIRST EDITION | **UNIQUE SPECIFICATION**

Get closer to F-PACE's inspiration – the acclaimed C-X17 concept vehicle – with the unique, sporty First Edition. This limited edition F-PACE, of just 2,000 vehicles, gives you exclusive design details and high specification features. Experience the excitement of driving an F-PACE with the individuality of limited edition style. The First Edition is available with 3.0 litre V6 300PS Turbocharged Diesel* and 3.0 litre V6 380PS Supercharged Petrol engines. It is available in two unique colours, Caesium Blue and Halcyon Gold. You can also choose Rhodium Silver or Ultimate Black.

UNIQUE FEATURES:

22" Double Helix Alloy Wheels with Grey finish and contrast inserts • Two unique colours, Caesium Blue and Halcyon Gold • Unique interior with Houndstooth embossed Windsor Leather Sports seats and Gloss Black trim finisher with Houndstooth pattern • Unique carpet mats

STANDARD FEATURES*

JAGUAR EXPERIENCE

There's no better way to get to know F-PACE and Jaguar than by taking a drive*. Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself, F-PACE and other cars from the incredible Jaguar range to the limit. Jaguar Experience also offers the opportunity to see a Jaguar brought to life during a tour of one of our UK manufacturing facilities. Find out more by visiting jaguar-me.com

*Available from market start date of sales. Please check with your local Jaguar retailer for availability.

THE WORLD OF JAGUAR

Choose an F-PACE and you're joining the exciting World of Jaguar. It makes owning and driving carefree and easy, as well as providing a range of exclusive services and lifestyle products.

SERVICING

F-PACE has been designed to keep servicing costs to a minimum – for example, the new Ingenium diesel† engines can achieve an incredible 34,000km or 2 years† between services due to intelligent design and advanced oil technology.

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your F-PACE to contribute to optimum performance and to help maximise its lifespan.

FLEET & BUSINESS

Jaguar is dedicated to being the premium manufacturer of choice for fleets and businesses by providing a highly attractive car range and exemplary customer service. Jaguars are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing totally customer-focused aftersales services, which keeps every Jaguar car on the move and in top condition, ensuring that they perform to the highest standard and in the most cost-efficient way for businesses. Visit jaguar-me.com for more information.

JAGUAR FINANCIAL SERVICES

Effortless performance and style come as standard with every Jaguar. Jaguar Financial Services makes buying one just as simple and rewarding. New or used, for personal or business use, we have an option that puts you in complete control. Please speak to your local Jaguar retailer to find out more.

JAGUAR ASSISTANCE

Jaguar Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

INSURANCE

F-PACE's key components are easily accessible for time-efficient service and repair costs. With a focus on lower repair costs, F-PACE delivers competitive insurance group ratings*. To find out more about the compelling business case for F-PACE, please contact your local Jaguar retailer.

JAGUAR MAGAZINE

Jaguar Magazine is the official magazine of Jaguar Cars. It features the All-New Jaguar F-PACE, F-TYPE, XJ, XE and XF, and the worlds of luxury, style, design and travel.

JAGUAR COLLECTION

The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our cars. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage we also have a collection that honours past achievements and features race inspired gift items and apparel. To find out more, visit the online shop at www.jaguar.com/shop

GLOSSARY

A

ADAPTIVE LED HEADLIGHTS
Adaptive LED Headlights automatically adjust to follow steering inputs, casting light where needed. They will angle the beam when indicating, as well as working in conjunction with Automatic High Beam Assist to prevent your lights from dazzling oncoming traffic.

AUDIO EQUALISATION
Audio Equalisation lets you fine tune the sound of your car's audio system by giving you tone adjustment not covered by standard treble, mid-range, and bass controls.

C

Cd.
The Cd. value is the drag coefficient of the car. It gives an indication of the vehicle's aerodynamic qualities. The lower the value, the more aerodynamically efficient the vehicle's design.

D

DAMPERS/DAMPING
Dampers absorb forces acting on the suspension for greater ride comfort and control. Dampers are also known as shock absorbers.

DRAG COEFFICIENT
The drag coefficient measures how aerodynamic a car is. See definition of Cd.

DSP AMPLIFIER
Meridian's Digital Signal Processing (DSP) technology analyses a range of variables that may impact audio quality, then processes them using sophisticated algorithms and adapts the system's output accordingly. This enables a level of powerful, authentic performance impossible with a conventional sound system.

E

ECO MODE
Eco Mode encourages fuel efficient driving by reducing throttle sensitivity, selecting more economical engine mapping and, on manual vehicles, advising of gear shifts. It also reduces fuel consumption by reducing the energy demands placed on the engine by climate control and audio systems.

J

JAGUARDRIVE CONTROL
Interacts with the Dynamic Stability Control system, engine and transmission management systems to alter the characteristics of the engine mapping, gear shifts and brakes. It offers different modes designed to optimise the vehicle's response to particular driving conditions and styles.

'J' BLADE DAYTIME RUNNING LIGHTS
'J' Blade Daytime Running Lights are separate LED running lights, in a distinctive 'J' shape, built into the headlights. They emphasise Jaguar's striking on road style.

JAGUARDRIVE SELECTOR
The JaguarDrive Selector rises from the centre console on start up. It is a rotary shifter used with automatic transmissions that allows you to quickly shift between drive modes.

S

SUPERCHARGED PETROL
A petrol engine with a supercharger. A supercharger is a forced induction device mechanically driven by the engine. It offers higher power outputs and immediate, linear response at all engine speeds.

T

10.2 INCH MULTI-TOUCHSCREEN WITH MULTI-TOUCH GESTURES
The Multi-touch functionality of InControl Touch Pro's 10.2 inch Display allows the screen to recognise multiple points of contact. This provides direct control of the system's features in a more natural, intuitive way, enabling gestures such as pinch and zoom.

TURBOCHARGED DIESEL*
Diesel engine with a turbocharger. A turbocharger is a forced induction device powered by exhaust gases. Turbocharging produces higher power outputs, lower emissions levels, and improved efficiency and refinement compared to similar capacity naturally aspirated engines.

X

XENON HEADLIGHTS
Bi-function Xenon headlights offer improved illumination and feature LED 'J' Blade Daytime Running Lights for a striking on road style.

*Market dependent.

IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

ENVIRONMENTAL INNOVATION AT JAGUAR

Jaguar is proud to continue the company's tradition with its approach to Environmental Innovation. From the choice of lightweight materials and lean production methods to the efficiency of its engines and designs, Jaguar is committed to operating as a more sustainable business and reducing its overall environmental impact.

Jaguar's flagship XJ model was the first in the company to achieve ISO14040, the international standard for vehicle 'life cycle assessment'. This certification measures the environmental impact of XJ from component material sourcing and manufacturing process, through driving 200,000 km. But that's not all. Every new Jaguar is designed to be 85% Recyclable/Reusable and 95% Recoverable at the end of the vehicle's life.

F-PACE, XF, XE, XJ and F-TYPE's innovative use of lightweight aluminium, which incorporates up to 50% closed-loop recycled material from the manufacturing process of the bodystructures, provides considerable performance benefits. This includes improved fuel consumption and less CO_2 emissions during the use phase of the Life Cycle due to lighter structures. Our on-going target is to ensure scrap aluminium reclaimed from our stamping process is to be segregated and recycled through a closed loop system and re-melted into the same grade quality sheet, therefore reducing CO_2 emissions during the production phase of the Life Cycle. Jaguar is committed to reducing dependency on fossil fuels, using fewer resources and creating less waste as part of our approach to sustainability excellence.

The company plan includes 25% reduction targets in operating and tailpipe CO_2 emissions, waste to landfill, logistics efficiencies (15%) and water consumption (10%), all based on per vehicle built since 2007. In addition the manufacturing assembly CO_2 emissions of each Jaguar built in the UK since 2009 is 100% offset. For each tonne of CO_2 emitted in the assembly process, Jaguar invests in projects that reduce an equivalent tonne of CO_2 elsewhere. Taking into account the company's global sales growth and increased investment in more efficient operating facilities, we are proud to have delivered and in some cases exceeded our Environmental Innovation targets as planned for 2012. And we are on track to meet our 25% reduction in joint European fleet average tailpipe CO_2 emissions by 2015.

Looking forward, we have developed our 2020 vision for sustainable business growth that focuses on continued improvements in tailpipe CO_2 emissions, operational carbon neutrality and zero waste. To date the company has offset over 6 million tonnes of CO_2, provided over 4,000 direct jobs in 60 emissions reductions projects in 17 countries and improved the lives of over 1 million people in our global cook stoves emissions reduction programme.

But it doesn't stop there. Our manufacturing facilities have been certified to ISO14001 since 1998 and we are credited to Platinum Plus level in the UK's Business in the Community Corporate Responsibility Index.
